SUMMARY

Analytical and detail-oriented Computer Science graduate with a strong passion for data analysis and business intelligence. Proficient in Python, SQL, Excel, and Power BI with hands-on experience building dashboards and extracting insights from real-world datasets. Eager to contribute as a Data Analyst Intern by solving complex problems through data-driven decision-making and reporting.

Education

Gyan Ganga Institute of Technology and Sciences, B.Tech CSE

2020 – 2024

- CGPA: 8.17/10.0
- **Coursework:** Computer Architecture, Probability Statistics and Linear Algebra, Computational Theory

Skills

Programming and Data Analysis: Python(Numpy, Pandas , Matplotlib, Seaborn)

Data Visualization and Reporting: Power BI, Tableau, Excel

Databases and SQL: MySQL, PostgreSQL

Platforms: Jupyter Notebook, PyCharm, Visual Studio Code, PostgreSQL, MySQL, Google Sheets

Soft Skills: Report Building, Critical Thinking, Decision making, Team work

Experience

Executive - Business Development Intern, Codingal

Jan 2025 – May 2025

- Lead pipelines maintained and analyzed using Excel, improving outreach efficiency by 25%.
- Utilized LinkedIn and Google to identify and track more than 30+ qualified leads weekly using structured data collection methods.
- Conducted market research and generated performance reports to support decision making for targeted campaigns and experience with data reporting and insight analysis.

Projects

HR Data Analysis

- Developed an interactive HR analytics dashboard using Power BI to analyze key workforce metrics, improve decision making, and enhance employee management strategies. Data cleaning using Excel and solving complex queries using postgresSQL.
- Tools used: PostgreSQL, Excel, Power BI

Zomato Data Analysis

- Analyze zomato data to explore trends, ratings, votes, listings, and online orders. Python for data cleaning and managing tabular data, creating interactive charts, and creating a report using the Power BI desktop.
- Tools used: Excel, PostgreSQL, Power BI, Python(Numpy, Pandas, matplotlib, Seaborn).

Credit Card Transaction Report

- Developed a project to analyze Credit Card transactions used by customers to get insights that help grow business. Conducting data cleaning in excel, creating dashboard, building trend charts using Power BI.
- Tools used: Power BI, Excel, SQL

Certifications

- Networking Essentials : Cisco Networking Essentials
- PCAP - Programming Essentials in Python : Cisco Networking Academy
- Esg Virtual Experience Program
- CyberOps Associate : Cisco Networking Academy
