

PROFESSIONAL SUMMARY

Highly motivated Computer Science student with a strong foundation in data analysis, visualization, and reporting. Skilled in utilizing SQL, Python, Power BI to extract, clean, and analyze data. Possess excellent communication and problem-solving skills to translate insights into actionable recommendations. Eager to leverage academic knowledge and technical skills in a data-driven environment to contribute to informed decision-making.

TECHNICAL SKILLS

- Languages : C/C++, Java, Python, SQL  
Frameworks : Pandas, NumPy, Scikit-Learn, Matplotlib  
Tools : Power BI, Excel, PowerPoint, MySQL, SQLite  
Platforms : Git, VS Code, Anaconda, PyCharm, Jupyter Notebook  
Soft Skills : Report Building, People management, Excellent communication  
Others : Google Cloud Platform(GCP), Probability and Statistics, Software Engineering, CNN, RNN, LSTM, Supervised and Unsupervised Machine Learning models

EXPERIENCE

- Data Science Intern** | Consult IT, Greater Noida December 2024 - May 2025
- Automate data acquisition, cleaning, and transformation for various machine learning projects. Utilized libraries like Pandas and NumPy for efficient data manipulation.
  - Utilized SQL queries to efficiently retrieve and manipulate large datasets from relational databases, supporting in-depth data exploration.
  - Created insightful data visualizations using Power BI to communicate complex findings and trends to stakeholders, facilitating data-driven decision making.
- AI-ML Intern** | AICTE May 2024 - November 2024
- Preprocessed and cleaned a dataset of 10,000 records to ensure data quality and model effectiveness.
  - Employed Machine Learning Algorithm such as Logistic Regression, K Neighbors Classifier, Support Vector Machine, Naive Bayes to achieve the desired outcome.
  - Optimized model hyperparameters through regularization technique to enhance performance.
  - Provided practical knowledge of collaborative filtering algorithms and the ability to evaluate model performance using precision and recall metrics.

EDUCATION

|-----------------------------------------|------------------------------------------------------|------------------------|
| Guru Nanak Dev Engineering college      | <b>B.Tech in Information Technology</b>   CGPA : 8.0 | July 2019 - June 2023  |
| Radhika Bal Vidya Mandir Sr Sec School. | <b>XII Board</b>   Percentage : 70                   | July 2017 - March 2018 |
| Radhika Bal Vidya Mandir Sr Sec School. | <b>X Board</b>   Percentage : 86                     | July 2015 - March 2016 |

PROJECTS

- Bitcoin Price Prediction** | Deep Learning, RNN, LSTM, GRU May 2025
- Developed and implemented a Bitcoin price prediction model utilizing Long Short-Term Memory (LSTM) and Gated Recurrent Unit (GRU) neural networks, enhancing forecasting accuracy.
  - Collaborated with a multidisciplinary team to design and execute a project focused on analyzing historical Bitcoin data, applying LSTM and GRU architectures to predict future price trends, demonstrating proficiency in deep learning methodologies and cryptocurrency analysis.
- Sales Data Analysis Dashboard** | SQL, Power BI, Excel, Power Query, Data Processing, DAX Function October 2024
- Orchestrated a comprehensive analysis of Superstore sales data utilizing Power BI and Excel, generating insightful visualizations and reports to identify sales trends, optimize inventory management, and drive data-informed decision-making processes.
  - Spearheaded the integration of Power BI and Excel to conduct in-depth analysis of Superstore sales data, facilitating the identification of key performance metrics, customer behavior patterns, and areas for operational improvement, showcasing proficiency in data visualization and analytics tools.

EXTRA CIRCULAR ACTIVITIES

- During college, I participated as a technical team member in the ISTE Society, contributing to various technical initiatives and projects.
- Awarded an average scholarship of 12 thousand per semester in recognition of academic achievement at GNDEC.
- Participle Code Invovation Series Hackathon organized by github and IncubateIND 2021.
