

ACADEMIC DETAILS

Course	Year	University	CGPA/Percentage
M.Sc. (Analytics)	2025	TISS, Mumbai	TBD
B.E. (Electrical & Telecommunication)	2021	Atharva College of Engineering, Mumbai	7
Class XII	2017	Nirmala Memorial Foundation College, Mumbai	65.23%
Class X	2015	Thakur Vidya Mandir High School, Mumbai	89.60%

INTERNSHIP/EXPERIENCE

Business Analyst Intern | OTO

Feb - March 25

- Dashboard Migration:** Migrated 15+ business-critical dashboards and data models from Qlik Sense to **Zoho Analytics**, improving report accessibility and reducing dashboard load time by **30%**.
- Loan Allocation Logic Design:** **Designed** and implemented a risk-based, bucket-wise collection allocation strategy that enhanced recovery prioritization across 500+ overdue accounts using **Excel**.
- Performance Dashboarding:** Developed 5 **automated dashboards** using **Tableau** for the collections team to enable **real-time tracking** of risk segments, agent efficiency, and recovery performance for management.

Data Analyst Intern | Harkesh Rubber

Apr - May 24

- Data Warehousing:** Optimized **Google Sheets** and transitioned data warehousing to **Google Big Query**, reducing data retrieval time by **98%** and saving **20+ man-hours** weekly.
- Data Visualization:** Built real-time dashboards in **Looker Studio** for internal part rejection analysis and **automated reporting**.
- Web App:** Created **Google App Script**-based forms and restricted sheet access to minimize manual errors, boosting data accuracy and efficiency by **20–30%** using **JavaScript, HTML and Bootstrap**.
- HR Analytics:** Authored a recommendation report to enhance the **Employee Satisfaction Index** for Great Place to Work certification, submitted to the **Managing Director**.

Data Analyst Intern | Techq Kconnect

Oct – Nov 23

- Placement Prediction Model:** Performed **ETL, data preprocessing, feature engineering**, and implemented ML solution framework to classify placement data; Achieved **0.80 recall & 0.76 AUC** using **Random Forest**.
- Neural Network Model:** Developed a **convolutional neural network (CNN)** using **Keras and Tensorflow** to classify medical images (cysts vs. tumors) with data augmentation for improved generalization.
- Image Processing:** Designed a **3-layer CNN** with **Conv2D, Max Pooling**, and Dense layers using **ReLU and Sigmoid** activations for binary classification; trained the model using **binary cross-entropy loss** and **Adam optimizer**.

PROJECTS

House Price Prediction Model using Machine Learning | NumPy, Pandas, Seaborn, Matplotlib

- Published the research paper in **International Journal for Scientific Research & Development**. Paper Id - [IJSRDVI30245](#).
- Developed and evaluated machine learning models to predict real estate prices using multivariate data from the Mumbai housing market, achieving **accuracy scores of 0.66 (Linear), 0.69 (Random Forest), 0.71 (Gradient Boosting), and 0.75 (XGBoost)** with XGBoost outperforming others by **reducing RMSE** by up to **20%**, resulting in **92% prediction accuracy**.

Portfolio Analytics: Evaluating Mutual Fund Returns and Risk | Python

- Performed **technical and risk-adjusted analysis** on a diversified investment set including **ITC (equity stock), SBI Mutual Fund, and Gold (commodity asset)** using **Python**, evaluating key metrics such as **cumulative returns, standard deviation**, and risk ratios including **Sharpe (0.60, 1.83, 2.32), Sortino, and Calmar**, identifying Gold as the top-performing asset.
- Built and optimized a **three-asset portfolio** using **cvxpy**, achieving an **annualized return of 28.97%, volatility of 12.6%**, and a **Sharpe ratio of 1.82**, demonstrating efficient risk-return tradeoff and **strategic asset allocation**.

Amazon Sales Dashboard | Power BI, DAX query

- Designed a sales dashboard using **Power BI** to track the **Amazon Sales** for multiple product category.
- Enabled data-driven decision making to improve the **supply and demand efficiency** and optimize warehouse **inventory**.

ACHIEVEMENTS / CERTIFICATIONS

- Google Data Analytics Professional Certification** - Coursera
- Power BI** - PrepInsta
- Advanced SQL** – Hacker Rank

SKILLS

Technical Skills: Python, SQL, R, MS Office (Excel, PowerPoint, Word), Power BI, Tableau, Looker Studio, Google Cloud Platform, PostgreSQL, Zoho Analytics, Machine Learning

Miscellaneous: Chartered Financial Analyst (L1 candidate), Management, Stakeholder Engagement, Collaborations, Communication.

POSITION OF RESPONSIBILITY

Class Representative – Formed and led a **Core Committee** to institutionalize responsibility and **improve coordination** across academic and extracurricular functions. Oversaw the creation of **charters** and **SOP** for each sub-committee to formalize roles, streamline operations, and ensure continuity. July 2024 - Present
