LinkedIn

Objective

Aspiring Data Analyst with strong technical expertise in Python, SQL, Power BI, and Excel. Equipped with hands-on experience in statistical analysis, data visualization, and translating business challenges into data-driven solutions. Adept at applying analytical skills to the healthcare and business sectors, especially in areas such as claims processing, eligibility, and provider management, to improve decision-making and optimize customer experiences.

Work Experience

Data Analyst Intern

SDHUB | [Oct-2024] – [Jan-2025] (3 months)

- Analysed and interpreted large datasets to provide actionable insights for business decision-making.
 - Developed interactive dashboards and reports using Power BI to visualize key performance metrics.
 - Wrote optimized SQL queries to extract and manipulate data from relational databases.
 - Assisted in data cleaning, preprocessing, and validation to ensure data accuracy and consistency.
 - Collaborated with cross-functional teams to understand data needs and improve reporting efficiency.
-

Projects

- Excel Dashboard (Oct2024):** Created an interactive Excel-based performance dashboard, utilizing advanced formulas, conditional formatting, and data visualization techniques to evaluate business performance, improving data analysis capabilities.
 - Power BI Performance Dashboard (Nov 2024):** Developed a dynamic Power BI dashboard using DAX expressions, Power Query, and visualization best practices to present key business metrics, enhancing data-driven decision-making.
 - E-Commerce Using SQL (Dec 2024):** Designed complex SQL queries to analyze and visualize customer data, demonstrating expertise in data modeling, query optimization, and analytical problem-solving to influence business growth strategies.
 - Data Insights and Visualization Using Python (Jan 2025):** Built a Python-based data analytics solution utilizing NumPy, Pandas, and Matplotlib to uncover hidden patterns and presented actionable insights through interactive dashboards.
-

Core Skills

- Tools & Technologies:** Power BI, Excel, GitHub, VS Code, Version Control Systems, Microsoft Aws (Basic)
- Data Analytics & Visualization:** Data Preparation, Data Exploration, Data Visualization
- Languages:** Python, SQL, Java, C, Html, CSS

- **Data Visualization Libraries:** Matplotlib, Seaborn
 - **Data Manipulation Libraries:** Numpy, Pandas
 - **Troubleshooting & Debugging:** Diagnosing and fixing bugs, performing root cause analysis, and proactively implementing solutions
 - **Soft Skills:** Problem Solving, Team Collaboration, Growth Mindset, Accountability, Strong Presentation Skills (Data-driven Storytelling)
-

Education

Indur Institute of Engineering & Technology

Bachelor of Technology in Computer Science and Engineering | *Expected Jun 2025*

Additional Information

- **Languages:** English, Telugu, Hindi
- **Interests:** Playing Cricket, Exploring New Things, Listening to Music
