Professional Summary

Data Analyst with proven proficiency in Python, SQL, and Tableau for analyzing complex datasets and creating interactive dashboards. Delivered actionable insights and automated reporting to support key business decisions and revenue initiatives. Demonstrated innovative problem-solving and strong communication skills while collaborating on mission-critical projects. Adept at transforming raw data into strategic insights for effective decision-making.

Education

Panipat Institute of Engineering and Technology, Haryana

Sep 2020 - Jul 2024

Bachelor of Technology, Information Technology (GPA: 8.03 / 10)

- **Achievements:** CGPA: 8.03 / 10

Sadanand Bal Vidya Mandir Sr. Sec School, Panipat

Mar 2019 - Mar 2020

Senior Secondary, Non-Medical (GPA: 9.43 / 10)

- **Achievements:** GPA: 9.43 / 10

Professional Experience

AAM Infotech Pvt. Ltd.

Apr 2025 - Sep 2025

Data Analyst Intern

- Analyzed complex datasets to identify trends and deliver actionable business insights, supporting revenue-raising initiatives.
- Developed interactive dashboards and automated reports using Excel and Power BI, showcasing capabilities similar to Tableau for effective KPI tracking.
- Coordinated with senior analysts to ensure accurate and timely delivery of insights and maintained strong partnerships with team members.

CS Soft Solutions Pvt. Ltd.

Jul 2023 - Aug 2023

Software Development Intern

Mohali

- Programmed Python scripts to automate routine data tasks, demonstrating proficiency with data manipulation libraries such as Pandas and NumPy.
- Reviewed and refined code collaboratively to enhance quality and performance of data-driven solutions.
- Contributed to team efforts in developing optimized solutions that align with innovative problem-solving and structured data analysis.

TechnoHacks

Jul 2023 - Aug 2023

Python Developer Intern

Remote

- Designed and implemented an ATM simulator and password generator using Python, demonstrating proficiency in data manipulation and logical problem-solving.
- Applied version control using Git and practiced collaborative coding.

Projects

Global Sales Performance Dashboard

- Built an interactive Power BI dashboard analyzing sales data to uncover regional performance and key drivers.
- Identified trends that informed strategic decisions and improved quarterly forecasting.
- Ensured clean, reliable data through rigorous preprocessing.

Customer Segmentation Analysis

- Used Python and SQL to segment customers based on purchasing behavior for targeted marketing.
- Applied clustering techniques and visualized results for non-technical stakeholders in Jupyter.

Operational Efficiency Reporting

- Automated Excel-based reporting processes, reducing report preparation time by 20%.
- Designed templates and macros to improve consistency and accuracy in operational KPIs.

Technical Skills

- **Data Analysis & BI Tools:** Excel, Power BI, Tableau, SQL, MySQL
- **Programming & Data Manipulation:** Python (Pandas, NumPy), Jupyter Notebook
- **Reporting & Dashboarding:** Interactive dashboards, KPI tracking, Business reporting
- **Version Control:** Git, GitHub

Certifications

- Google Data Analytics Professional Certificate (Coursera): Data cleaning, analysis, visualization with SQL, R, Python, Tableau.
- Python Training Program (EDUCBA): Python programming, OOP, and automation.
