Professional Summary

Data Analyst transitioning into a Junior Data Scientist role with strong proficiency in Python, SQL, and data visualization. Demonstrated expertise in ETL, cloud platforms, and web scraping for developing predictive models and extracting actionable insights. Proven ability to automate reporting and communicate complex findings effectively to support key business decisions.

Education

Panipat Institute of Engineering and Technology, Haryana

Sep 2020 - Jul 2024

Bachelor of Technology, Information Technology

- **GPA:** 8.03 / 10
- **Achievements:** CGPA: 8.03 / 10

Sadanand Bal Vidya Mandir Sr. Sec School, Panipat

Mar 2019 - Mar 2020

Senior Secondary, Non-Medical

- **GPA:** 9.43 / 10
- **Achievements:** GPA: 9.43 / 10

Professional Experience

AAM Infotech Pvt. Ltd.

Apr 2025 - Sep 2025

Data Analyst Intern

- Analyzed large datasets to extract actionable insights and support revenue initiatives using statistical analysis and exploratory data techniques.
- Developed interactive dashboards and automated reports with Excel and Power BI, demonstrating expertise in data visualization and ETL processes.
- Collaborated with senior analysts to ensure data quality and timely delivery of insights, reinforcing strong team partnerships.

CS Soft Solutions Pvt. Ltd.

Jul 2023 - Aug 2023

Software Development Intern

Mohali

- Programmed Python scripts to automate routine data tasks, utilizing Pandas and NumPy for effective data manipulation.
- Refined code collaboratively to enhance data processing efficiency and quality, aligning with best practices in predictive modeling.
- Contributed to team efforts by developing optimized solutions for data extraction and transformation tasks.

TechnoHacks

Jul 2023 - Aug 2023

Python Developer Intern

Remote

- Designed and implemented an ATM simulator and password generator using Python, showcasing logical problem-solving and data manipulation skills.
- Employed version control with Git to support collaborative development and maintain code integrity.

Projects

Global Sales Performance Dashboard

- Built an interactive Power BI dashboard analyzing sales data to uncover regional performance and key drivers.
- Identified trends that informed strategic decisions and improved quarterly forecasting.
- Ensured clean, reliable data through rigorous preprocessing.

Customer Segmentation Analysis

- Used Python and SQL to segment customers based on purchasing behavior for targeted marketing.
- Applied clustering techniques and visualized results for non-technical stakeholders in Jupyter.

Operational Efficiency Reporting

- Automated Excel-based reporting processes, reducing report preparation time by 20%.
- Designed templates and macros to improve consistency and accuracy in operational KPIs.

Technical Skills

- **Data Analysis & BI Tools:** Excel, Power BI, Tableau, SQL, MySQL, Data Visualization, Analytical Thinking
- **Programming & Data Manipulation:** Python (Pandas, NumPy), Jupyter Notebook, Machine Learning
- **Reporting & Dashboarding:** Interactive dashboards, KPI tracking, Business reporting
- **Version Control:** Git, GitHub

Certifications

- **Google Data Analytics Professional Certificate (Coursera):** Data cleaning, analysis, visualization with SQL, R, Python, Tableau.
- **Python Training Program (EDUCBA):** Python programming, OOP, and automation.
