Matriculation CBSE, Delhi, India	2017

Technical Skills

- **Programming & Data Analysis:** Python, NumPy, Pandas
- **Data Visualization:** Power BI, Matplotlib, Seaborn, Plotly
- **Database Management:** MySQL
- **Cloud Computing:** AWS (S3, IAM, EC2, Cloud Integration)
- **Soft Skills:** Problem Solving, Critical Thinking, Communication

Projects

Apple iPhone Sales Data Analysis 2025

- Analyzed iPhone sales trends using Pandas and NumPy to identify key performance insights.
- Visualized pricing, model performance, and customer trends using Matplotlib to support strategic decision-making.
- Simulated business intelligence reporting by identifying product demand patterns and regional preferences.

IMDb Sales Dashboard (Power BI)

2024

- Designed a dynamic Power BI dashboard using IMDb movie data to track sales and ratings.
- Utilized Power Query and DAX for data transformation and created KPIs for genre-wise and revenue-based insights.
- Enabled data storytelling by highlighting top-grossing movies and viewer behavior trends.

GovIntranet Rollout – Ministry of DoNER (NIC Project)

2025

- Trained 50+ government officials and staff on the GovIntranet platform, improving adoption and reducing support dependency.
- Provided technical support and resolved issues during rollout, ensuring 100% system functionality at launch.
- Ensured system compliance with NIC's security and deployment standards across regional offices.

MoES Website Content Management (WordPress)

2025

- Managed and updated web content for the Ministry of Earth Sciences using WordPress CMS.
- Published announcements, reports, and updates, ensuring accuracy and timely dissemination.
- Coordinated with internal teams to maintain web structure and accessibility standards.

Certifications

- Google Data Analytics Professional Certificate (Coursera)
- IDEMA – Data Analytics
- AWS Certified Cloud Practitioner (Udemy)

Languages

- English (Fluent)
- Hindi (Fluent)

Interests

- Cricket, Traveling, Reading, Photography, Cooking
