-

👛 RELEVANT EXPERIENCE

Business Analyst (Post Sales) | OweBest Technologies Pvt. Ltd.
Jaipur, Rajasthan | [April 2025] – Present

- Manage international clients post-sale to ensure smooth project execution and communication.
- Create detailed Software Requirement Specifications (SRS) and Screen Element Lists (SEL) based on client needs.
- Collaborate with designers and developers to build prototypes and ensure alignment with client requirements.
- Bridge the gap between technical teams and clients, translating business needs into actionable features.
- Ensure timely delivery and quality standards by coordinating across cross-functional teams.

Manual Testing Intern | Sulid Solution | Bangalore

- Executed manual testing of web applications to identify bugs and ensure product quality.
- Prepared test cases, performed functionality and regression testing, and documented defects.

Storesguru.com (Wix)

- Built a local discovery platform similar to Yellow Pages that listed nearby stores and shops with essential contact details and categories.
 - Designed and developed the website focusing on clean UI, local SEO, and ease of access for mobile users.
 - Conducted user feedback surveys to optimize the listing and search experience.
 - Continuously updated the platform to support more regions and improve the discoverability of local businesses.
