M.Sc. Data Science graduate with experience in cleaning and analyzing large datasets, creating reports, and building dashboards using Excel, Google Sheets, and Power BI. Proficient in Python, SQL, and statistical modeling. Eager to support data-driven decisions and work collaboratively in remote, cross-functional teams.

Education

M.Sc in Data Science Christ University, Pune Lavasa Campus	Aug 2023 – June 2025 CGPA: 8.44/10
B.Sc (Hons.) in Statistics University of Calcutta	Mar 2020 – June 2023 CGPA: 7.856/10

Experience

Analytics Intern SoftOfficePro Survey Analytics & Regression	Feb 2025 – May 2025
- Analyzed 120K+ survey records and built regression models to forecast participation trends. - Automated Excel/SPSS reporting, reducing effort by 57%.	

Key Skills

- **Business Skills:** Report writing, documentation, identifying trends, summarizing insights
- **Statistical Techniques:** Regression Analysis, Hypothesis Testing, Time Series Forecasting, EDA
- **Machine Learning:** Linear/Logistic Regression, Decision Trees, SARIMA, Holt-Winters, LSTM
- **Programming Languages:** Python, R, SQL
- **Data Handling Tools:** Excel, Google Sheets, SQL Databases
- **Visualization:** Power BI, Matplotlib, Seaborn, Google Data Studio, Google Analytics
- **Soft Skills:** Communication, Teamwork, Attention to Detail, Self-Learning

Projects

Forecasting U.S. Energy Production using Time Series Models

- Forecasted monthly U.S. electricity and gas production using **Holt-Winters**, **SARIMA**, and **LSTM** models.
- **SARIMA** achieved best accuracy: **MAE = 1.83**, outperforming other models.
- Validated assumptions using ADF test, ACF plots, and residual diagnostics.
- Interpreted accuracy using **MAE**, **RMSE**, and **MAPE**.

SDG Goal 4: Quality Education – Power BI Dashboard

- Built an interactive **Power BI** dashboard to track the UN's **SDG Goal 4 – Quality Education**.
- Cleaned and transformed datasets (literacy, enrollment, education spending) using **Power Query**.
- Designed visuals (bar charts, maps, KPIs) with filters and slicers for user-driven insights.
- Highlighted regional disparities and trends to support education policy discussions.

Survey Analytics and Participation Forecasting | SoftOfficePro

- Analyzed **120K+** survey responses to identify participation trends and key factors.
- Built regression models to forecast respondent turnout.
- Automated SPSS/Excel reports, cutting manual work by **57%**.
- Delivered structured reports with insights to guide outreach and planning.
