PROFESSIONAL SUMMARY

Driven Software Engineering student skilled in Java, Python, and C++, with a strong foundation in data structures, algorithms, and system design. Experienced in Unix/Linux, machine learning, and NLP, with a passion for building scalable, real-time applications.

TECHNICAL COMPETENCIES

Programming Languages: Java, Python, C++, JavaScript, TypeScript, SQL, NoSQL, HTML, CSS, GraphQL

Core CS: Data Structures, Algorithms, Object-Oriented Design, Operating Systems, DBMS

Frameworks & Tools: ReactJS, Node.js, Express.js, Spring Boot, Flask, REST APIs, Socket.io

DevOps & Testing: Git, CI/CD (Jenkins), Docker, Linux, Postman, JIRA, Jest

Cloud/Other: Shaka Player (Basic), Maven, Agile/Scrum, Microservices, Shell Scripting

TRAINING & INTERNSHIPS

1.Full Stack Web Development Intern – Navodita Infotech (May 2024 – June 2024)

Built responsive e-commerce features using React and Node.js, integrating REST APIs and ensuring cross-device compatibility.

2.Nodejs intern – Celebal Technologies private limited (2 June 2025- 3 August 2025)

Developed a real-time chat app using Node.js, Socket.io, and MongoDB. Enabled instant messaging without page refresh, with data managed via Mongoose and timestamps formatted using Moment.js. Developed and tested the application in a Unix-based environment, familiar with Linux shell for logs and deployment scripts.

EDUCATION

Bachelors in Computer Science Engineering | Chandigarh University
Session: 2022-2026 | CGPA: 7.59/10

Intermediate (CBSE) | SKV, SP Road, New Delhi, India
Session: 2020-2021 | Percentage: 88.17%

PROJECTS

RESEARCH WINDOW ([GitHub](#)) (Jan 2025)

Java, Spring Boot, React.js, PostgreSQL, REST APIs, Socket.io

- Developed a full-stack research-sharing platform using **Spring Boot** (Java) for backend and **React.js** for frontend.
- Designed and implemented secure **RESTful APIs** for user authentication, file upload/download, and research data management. Integrated **WebSocket communication (Socket.io)** for real-time file sharing and notifications.
- Used **JPA with PostgreSQL** for persistent data storage and complex relational queries, state management using **Redux**.

SENTIMENT ANALYSIS OF PRODUCT REVIEWS ([GitHub](#)) (Nov 2024)

Python, NLP, Scikit-Learn, flask

- Built an ML pipeline to classify reviews as positive, negative or neutral.
- Preprocessed 50,000+ reviews using tokenization and lemmatization techniques.
- Achieved 91% F1 score using Logistic Regression, Designed and implemented end-to-end ML solution using core algorithms and performance evaluation (91% F1 score).
- Developed a Flask-based web app with real-time sentiment prediction via REST APIs.

AI-DRIVEN RESUME EVALUATION & ENHANCEMENT SYSTEM (July 2024)

- Developed an intelligent system to classify and score resumes using ML and rule-based optimization techniques.

ACADEMIC ACHIEVEMENTS

- Hack With Chandigarh hackathon** – Top 10.
- Girlsript Summer of Code (GSSoC)** Contributor & Mentor, 2024,2025.
- Code Fusion Hackathon** - Unstop Finalist.

CERTIFICATIONS & AWARDS

- Azure AI Fundamentals** – Microsoft Azure Certification.
- Artificial Intelligence with Python** – IIT Roorkee (Coincent)
- Cloud Computing (Silver Elite)** – NPTEL.
- Computer Organization & Architecture** – NPTEL
- Web Development Bootcamp** – Udemy (Covered API design, debugging, and CI/CD basics).
- Data Structures & Algorithms** – University Curriculum
- AWS cloud practitioner essentials (Amazon web services)**

PUBLICATIONS

- Computer Vision: Image Recognition and Event Detection*, **ITIDS 2024**, Chandigarh University.
- Text detection in images using python*, **16th INTERNATIONAL IEEE CONFERENCE ON COMPUTING, COMMUNICATION AND NETWORKING TECHNOLOGIES (ICCCNT)**.
