

Summary

I possess an undergraduate degree in Commerce and am in the process of obtaining a Postgraduate degree in Computer Applications. This shift is allowing me to enhance my technical knowledge and bolster my enthusiasm for the IT sector. By merging my varied academic background with the technical abilities I am currently enhancing, I aim to make a significant contribution to the IT field while continually seeking new opportunities for growth and innovation.

Educations

Higher Secondary Certificate (HSC) Commerce BMCC, Savitribai Phule Pune University (SPPU), Pune	Jun'19 - Jun'21	Grade 91.17%	India
Bachelor of Commerce (B.Com) Cost Accounting SP College, Savitribai Phule Pune University (SPPU), Pune	Jun'21 - Jun'24	Grade Cgpa 8.98	India
Master of Computer Application (MCA) IMCC, Savitribai Phule Pune University (SPPU), Pune	Sep'24 - Present	Grade Fy Cgpa 8.83	India

Projects 2

Expense Tracker Web Application Full Stack Developer @ Academic Project Developed a full-stack Expense Tracker web application using the MERN stack (MongoDB, Express.js, React, Node.js), enabling users to efficiently manage personal finances and gain insights into spending habits. Implemented robust CRUD operations for adding, deleting, and viewing transaction history. Designed a responsive and intuitive React frontend for real-time transaction display. Managed backend API requests and data storage using Node.js, Express.js, and MongoDB, showcasing proficiency in RESTful APIs and state management principles. MongoDB Express.js React JS Node.js	Oct'24 - Dec'24
Food Waste to Fertilizer Platform Full Stack Developer @ Academic Project Created an end-to-end MERN stack web application facilitating the conversion of food waste into organic fertilizer, promoting sustainability. Engineered features for users to register as waste donors with detailed submissions for efficient collection by processing centers. Developed a marketplace module for	Feb'25 - Apr'25

listing and selling processed fertilizer to buyers. Managed user authentication, donation records, and product listings via MongoDB and Express. Designed an intuitive React frontend, demonstrating expertise in full-stack development, user management, and real-world application integration for environmental impact.
