CAREER OBJECTIVE

Detail-oriented and highly motivated Computer Science undergraduate seeking entry-level opportunities in data analysis, business intelligence, or software development. Proficient in transforming raw data into actionable insights using industry-standard tools. Passionate about leveraging analytical and technical skills to support business decisions and optimize operational efficiency in a collaborative environment.

SKILLS

Data Analysis Tools: Microsoft Excel, Power BI, Tableau, SQL
Programming Languages: Python, HTML, CSS, JavaScript (basic)
Database Management: MySQL, CRUD operations, Data Modeling
Statistical Techniques: Regression, Hypothesis Testing, Data Cleaning
Soft Skills: Analytical Thinking, Problem Solving, Leadership, Agile Collaboration

EDUCATION

Bachelor of Engineering - Computer Science Tontadarya College of Engineering, Gadag PUC - Science Stream	7.5 CGPA 2021 – 2025
Jnana Jyothi PU College, Yelahanka, Bengaluru SSLC	80% 2019 – 2021
Adarsha International Public School, Kalakeri, Vijayapur	85% 2018 – 2019

PROJECTS

Image-Based Text Summary Generator (Python, Streamlit, BLIP, BART, PaddleOCR)

- Engineered an offline visual-to-text summarization tool achieving 89% image summary accuracy.
- Integrated advanced ML models ensuring data privacy and offline functionality.

Tailor Management System (MySQL, HTML/CSS, PHP)

- Developed a full-stack system for managing customer records, orders, and deliveries.
 - Designed intuitive UI and backend CRUD operations to enhance efficiency.
-

INTERNSHIPS

AI-DevOps Intern – Rooman Technologies (VTU) (Sep 2024 – Mar 2025)

- Implemented AI-driven components into DevOps pipelines to automate deployment and monitoring.
- Built scalable infrastructure using modern tools and agile methodologies.

Web Development Intern – Agile ITech (Oct 2023 – Nov 2023)

- Developed responsive websites using HTML, CSS, and JavaScript.
 - Collaborated in agile teams for frontend feature implementation and testing.
-

CERTIFICATIONS

- Data Analyst Certification – *ExcelR* (Excel, SQL, Power BI, Tableau)
- Web Development – *Agile ITech*
- AI-DevOps – *Rooman Technologies*
- Data Analysis with Python – *IBM (Cognitive Class)*
- Innovation Design Thinking – *NPTEL*
- Employability Skills – *Wadhwani Foundation*
