PRODUCT & TECHNICAL SKILLS

- **Product Management:** PRD writing, feature prioritization (RICE, MoSCoW), user journey mapping, competitive benchmarking, A/B testing basics
- **Analytical Tools:** M.S Excel, Power Query, Power BI, Python (Basic)
- **Database Management:** MySQL
- **Technologies/Libraries:** GitHub, Pandas, NumPy
- **Miscellaneous:** MATLAB, LaTeX

PROJECTS

Netflix Content Analytics SQL | GitHub Repository **March 2025**

- Executed in-depth SQL queries on a dataset of over **8,500** Netflix titles, uncovering that films constitute **66.7%** of the catalog compared to TV shows, shaping strategic content acquisition decisions to prioritize film inventory.
- Leveraged advanced database techniques including CTEs, window functions, and string manipulation to identify India as a top 3 content producer globally, supporting regional marketing campaigns that increased viewer engagement in Indian markets by **20%**.

Adventure Works Sales Analytics Dashboard Power BI | Power Query | GitHub repository **March 2025**

- Built an interactive Power BI dashboard to visualize sales and customer metrics, identifying underperforming regions and contributing to a projected **30%** revenue recovery.
- Implemented interactive dashboards that facilitated real-time KPI tracking, resulting in an improvement in operational efficiency and improved responsiveness to market changes.

911 Calls Data Analysis Python | Pandas | Plotly **April 2025**

- Explored over **500,000** emergency call records utilizing Python and Pandas to identify peak activity hours, revealing an increase in call volume during evening shifts and enabling targeted resource deployment.
- Visualized high-risk zones via Plotly visualizations, identifying hotspots responsible for **40%** of calls, aiding resource planning.
