

EDUCATION

University Of Pune , B.E. Computer Engineering
Diploma Computer Science , MSBTE

Dec 2021 - May 2024 , CGPA - 8.5
Percentage - 97%

SKILLS

Analytical Tools : Data Visualization, Microsoft Power BI, Python Notebook
Programming Languages : Python
Database : MySQL
Other : Machine Learning , Text Mining, Data Visualization, Data Reporting
Problem Solving ,Microsoft Office (Power Point ,Word, Excel), SDLC ,Big Data ,GIT ,APIs , Statistical analysis, Pandas ,NumPy ,Forecasting , Data mining ,Data analytics ,Data Science , Data cleaning ,feature engineering , normalization , Predictive Modelling , Text Analytics, Data Management, Data Extraction, AWS .

PROJECTS

Hull Corrosion Examination of Merchant Vessels in Hazardous Zones Using Computer Vision

- Developed a computer vision model to detect and analyze hull corrosion in merchant vessels using Python, OpenCV, and TensorFlow
- Used CNNs for corrosion classification and segmentation with image preprocessing techniques.
- Deployed on an edge device for real-time monitoring and anomaly detection.
- Evaluated model performance using precision, recall, and IoU metrics.

Emotion-Based Image Classifier using CNN

- Designed and trained a Convolutional Neural Network (CNN) to accurately classify images as either 'happy' or 'sad', achieving high validation accuracy.
- Performed data preprocessing tasks such as face detection, resizing, and normalization to improve model performance
- Designed and trained a Convolutional Neural Network (CNN) to accurately classify images as either 'happy' or 'sad', achieving high validation accuracy.

EXPERIENCE

Consulting Engineer Trainee | November , 2024 – Present | Cisco

- Conducted exploratory data analysis (EDA) using Python, SQL, SAS, Excel and AWS to support data-driven decision-making for clients and internal stakeholders.
- Analyzed data using Python and SQL built interactive dashboards with Power BI, Tableau, and Excel for visualization and reporting.
- Performed data cleaning, preprocessing, and exploratory analysis using Python (Pandas, NumPy), SQL, SAS, Excel and AWS.
- Documented workflows and best practices to streamline analysis, reporting, and deployment.
- Collaborated with cross-functional teams in an Agile environment to gather requirements, define KPIs, and deliver tailored analytical solutions.

CERTIFICATION

- Cisco Certified Network Associate (CCNA) – Cisco
- Data Science , AI & Development-IBM- Coursera
- Cloud Digital Leader – Google Cloud

EXTRACURRICULAR

- Member of the Research Club and ACES
- Project Visionary – Volunteering for various social causes
