PROFESSIONAL EXPERIENCE

Fluper Pvt. Ltd., Noida, UP, India

Jul 2024 – Present

Business Analyst

- Led end-to-end requirement elicitation from clients and internal stakeholders through workshops, interviews, and surveys, resulting in 100+ documented user stories and acceptance criteria.
- Authored comprehensive BRD and FRD documents for multiple modules, improving clarity of scope and reducing scope creep by 25%.
- Designed user-centric wireframes and process flow diagrams in Figma and Draw.io, shortening UAT feedback cycles by 20%.
- Conducted UAT sessions with QA and business teams, tracked defects, and validated fixes to maintain product quality above 98% pass rate.

Hodophile Kashmir, Srinagar, J&K, India

Jun 2020 – Jun 2021

Business Analyst (Pre-Sales)

- Analyzed travel market trends, competitor offerings, and customer behavior to identify 4 new niche segments, contributing to a 15% increase in targeted leads.
- Collaborated with product and sales teams to craft customized travel solutions and proposals, achieving a 20% uplift in RFP win rates.

- Developed detailed pre-sales documentation, including solution briefs, cost-benefit analyses, and implementation roadmaps.
- Presented insights and recommendations to C-level executives and clients, strengthening stakeholder buy-in and accelerating decision-making.

Kashmir Thunder, Srinagar, J&K, India

Jan 2020 – Aug 2021

Freelance Columnist

- Researched and authored 25+ in-depth articles on Sufi elders, cultural heritage, and regional developments, driving a 10% monthly readership growth.
- Managed end-to-end content workflow, from topic ideation and source validation to drafting, revisions, and publication deadlines.
- Collaborated with editors and designers to ensure visual and editorial consistency across print and online editions.

PERSONAL PROJECTS

I-Chrono B2C Watch Marketplace (Fluper)

- Authored 100+ FRD/BRD documents and crafted interactive wireframes for a scalable e-commerce platform using Figma.
- Coordinated stakeholder reviews and iterative enhancements, resulting in a 4-week reduction in the launch timeline.

E-Kissan B2B Farmers Portal

- Developed a .NET MVC and MS SQL-based portal with Bootstrap and jQuery integration, enabling multi-stakeholder collaboration.
- Implemented dashboard analytics for real-time tracking of resource usage, improving portal adoption by 30%.
