

Gopigha Shree

Detail-oriented and analytical aspiring Business Analyst seeking hands-on experience in product documentation, Agile workflows, and project coordination. Eager to contribute to a collaborative team while deepening skills in JIRA, wireframing, and stakeholder communication.

Technical Skills Summary

Skills I gained through my work experience & personal projects

- Proficient in writing advanced SQL queries using window functions, CTEs, indexing, and performance tuning across MySQL, SQL Server, and PostgreSQL.
- Skilled in creating interactive dashboards and reports using Power BI and Excel, with hands-on experience in DAX, data cleaning, and reporting automation.
- Familiar with Agile methodology, sprint planning, and task tracking using JIRA, Trello, and Notion.
- Experienced in documenting business requirements, user flows, and process maps using tools like Microsoft Word, Excel.
- Basic knowledge of wireframing tools such as Figma and Balsamiq for visualizing user interfaces and workflows.
- Capable of conducting secondary research and competitor analysis to support product and business decisions.
- Strong analytical thinking, attention to detail, and ability to communicate effectively with cross-functional teams.
- Comfortable working in fast-paced environments and adapting quickly to new tools and technologies.

Work Experience - 1.9 years

Capgemini Pvt.Ltd, Chennai

APR 2022-DEC 2023

Analyst

- Developed and optimized complex SQL queries to extract meaningful business insights from large relational datasets.
- Designed and maintained stored procedures, views, and functions for streamlined data processing and reporting.
- Automated reporting workflows using SQL Server Agent to schedule jobs and reduce manual effort.
- Optimized a slow-running SQL query by analyzing the execution plan and implementing indexing on frequently filtered columns, reducing query runtime by 75%.
- Conducted data quality checks to validate deliverables before production deployment, ensuring accuracy and consistency.
- Collaborated with cross-functional teams to prepare unit test case documentation and validation reports using Excel and Word.
