EDUCATION

LJ Polytechnic

Diploma in Computer Engg.: CGPA: 7.74

Ahmadabad, Gujarat

Unitedworld Institute of Technology

Btech in Computer Engg.: CGPA: 7.4(Ongoing)

Gandhinagar, Gujarat

SKILLS

languages: HTML, CSS, SQL

Soft skills: Time Management, Critical thinking, Communication skill, Flexibility and adaptability

Tools: Power Bi, Canva, Tableau, Excel, Word

Projects

- Developed "NutriTrack," an e-commerce platform for purchasing vegetables, fruits, milk, and other essentials. Integrated a unique feature that visually represents nutritional information through interactive pie charts, enabling customers to better understand their nutrient intake and make informed purchasing decisions.
- Developed a "Tourism Management System", a comprehensive website designed to facilitate seamless travel planning. Implemented features for browsing destinations, booking accommodations, and accessing travel information, enhancing user experience and convenience for travellers.
- Developed a "Course Recommendation System," an intelligent platform designed to assist users in selecting the most suitable courses based on their preferences and learning objectives. Implemented personalized recommendations, course categorization, and an intuitive user interface to enhance the learning experience and decision-making process.

Certifications

- Business Analysis & Process Management
- Introduction To Data Analysis Using Microsoft Excel
- The Training on Python Programming, Data Analysis with Python, Artificial Intelligence
