Work experience

Amplelogic | Analyst

Hyderabad, Telangana | 05.2025 - Current

- **Optimized QMS workflow for Daicel by analyzing and validating 15+ quality modules**, ensuring end-to-end functional and regression testing using SQL queries and manual QA test cases; contributed to reducing bug turnaround time by **22%** through efficient stakeholder communication and defect tracking.
- **Developed and executed 100+ advanced SQL scripts** for data validation, exception handling, and process compliance reports across QMS modules (like Deviation, CAPA, and Change Control); collaborated with the SQL development team to enhance data integrity and streamline approval hierarchies.
- **Mapped client-specific business rules to system functionalities** by coordinating with cross-functional teams, documenting detailed BRDs and test scenarios; supported UAT phases by identifying 30+ functional gaps, leading to improved client satisfaction and faster deployment for Daicel.

Bhabha Atomic Research Centre | Project Intern

Mumbai, Maharashtra | 08.2023 - 10.2023

- Developed a comprehensive skill management application using Django and SQL, improving employee competency tracking by housing data in a centralized system, resulting in a 20% reduction in data retrieval time.
- Led an initiative to streamline procedures for handling skill-related datasets, resolving 3 major project delays, ensuring smoother project timelines.
- Enhanced system performance and user interface, improving the user experience for over 200 employees and reducing navigation time by an average of 15 minutes per week.

SAP | Technical Consulting Virtual Internship forage

Chennai, Tamil Nadu | 06.2023 - 07.2023

- Completed a 4-week virtual internship in Technical Consulting, analyzing 1000+ data points and delivering 2 insightful presentations.
- Executed tasks in data assembly, analysis, and results presentation, enhancing problem-solving and data interpretation skills.

Education

Vellore Institute of Technology | B.Tech(Computer Science)

Chennai, Tamil Nadu | 2021 - 2025

St.Edmunds School | CBSE

Jaipur, Rajasthan | 2020 - 2021

Navnidh Hassomal Lakhani Public School | CBSE

Bhopal, Madhya Pradesh | 2018 - 2019

Skills

Programming & Scripting: Python, Java, SQL

Web & Software Development: Django, Web Development (Frontend & Backend)

Data Analytics & AI: Power BI, Machine Learning, Artificial Intelligence

Cybersecurity: Security Fundamentals, Network Security, Secure Coding Practices

Projects

Web-Based Data Management System (Django & SQL):

Developed a Django-based data management tool with Handsontable integration, boosting operational efficiency by **30%** and enhancing real-time data editing by **25%**.

Agricultural Crop Yield Prediction (Machine Learning):

Built ML models (Naive Bayes, Random Forest, Gradient Boosting) for crop yield forecasting, increasing prediction accuracy by **18%** and model robustness by **15%** via hyperparameter tuning.

AdventureWorks BI Dashboard (Power BI):

Created an interactive Power BI dashboard with advanced DAX and ETL processes, enhancing reporting accuracy and business insights delivery by **20%**.

Certifications

Java and SQL – *Spoken Tutorial Project IIT Bombay*

Microsoft Power BI Desktop for Business Intelligence – *Udemy*

Python Programming Course – *Coursera*

JsonPowerDB Course – *Login2 Xplore*

Foundations of Cybersecurity – *Coursera*

WEBVERSE Coding Competition – *Linux Club, VIT Chennai*

C,C++ – *Spoken Tutorial Project IIT Bombay*

Certified Agentforce Specialist – *Salesforce*

HTML and CSS Course – *Open Weaver*

PASSWORD Coding Competition – *Android Club, VIT Chennai*
