SUMMARY

Data Analyst skilled in SQL, Python, R, Excel and Power BI, transforming complex data into actionable insights. Delivered impactful dashboards and solutions across HR, supply chain, and retail, driving better business decisions.

SKILLS

Technical Tools

- **Programming & Analysis:** SQL, Python (Pandas, NumPy), R
- **Data Visualization:** Power BI (DAX, Data Modeling), Tableau, Matplotlib, Seaborn
- **Data Management:** ETL Pipelines, Power Query, Power Platform
- **Excel (Advanced):** VLOOKUP, INDEX-MATCH, Pivot Tables, Charts, Slicers, Timelines, IF, SUMIFS, COUNTIFS
- **SQL Development:** Joins, Subqueries, CTEs, Window Functions, Stored Procedures, Triggers, Indexing
- **Tools & Platforms:** GitHub, MySQL
- **Domain Knowledge:** Financial Analysis & Reporting, Budgeting & Forecasting, Investment Banking Fundamentals
- **Soft Skills:** Analytical Thinking, Attention to Detail, Problem-Solving, Communication, Collaboration

EXPERIENCE

DATA VISUALIZATION SPECIALIST INTERN

TATA GROUP

December 2024 - February 2025

- Increased data accessibility by **30%** by designing and deploying **50+ interactive dashboards** in Tableau and Power BI.
- Enhanced executive decision-making by delivering **strategic visualizations** that highlighted key business trends.
- Improved quality of client discussions with senior leadership by **developing data-driven questions** and actionable insights.
- Reduced reporting time by **40%** through automation of data extraction and transformation workflows using Python and Power Query.
- Enabled faster, insight-driven decisions by **streamlining analytics delivery** across multiple business units.

DATA ANALYTICS INTERN

QUANTUM

August 2024 - October 2024

- Boosted prediction accuracy for consumer purchasing behavior by **20%** through a machine learning model built using Python and SQL.
- Increased report adoption by **30%** by implementing **interactive Tableau dashboards** for stakeholders.
- Delivered **actionable business recommendations** by analyzing large-scale transaction datasets and uncovering customer insights.
- Identified **benchmark stores** and supported layout testing by conducting **commercial data analysis**.

POWER BI INTERN

PwC

May 2024 - July 2024

- Improved decision-making efficiency by **15%** through comprehensive Power BI reports monitoring client financial performance.
- Enhanced stakeholder visibility of **key business metrics** by developing KPI-focused dashboards.
- Identified **root causes of executive-level gender imbalances** via detailed gender-related KPI analysis.
- Supported leadership decisions by **communicating analytical findings and actionable recommendations** to engagement partners.

PROJECT

SUPPLY CHAIN ANALYTICS DASHBOARD | Power BI, DAX, Python, Pandas, NumPy, Matplotlib, Seaborn

Atliq Company

- **Interactive OTIF Delivery Dashboard (Power BI + Python):**
- Built a Power BI dashboard to track OTIF (On-Time In-Full) delivery, improving visibility across **10,000+ monthly shipments**.
- Implemented DAX measures (OT%, IF%, OTIF%) to assess service-level adherence, enabling **15% reduction in late deliveries**.
- Integrated Python for forecasting and anomaly detection, improving prediction accuracy by **20% vs. manual methods**.
- Delivered insights that identified bottlenecks and supported **process changes reducing supply delays by 12%**.

HR ANALYTICS DASHBOARD | Power BI, Power Query, DAX

Atliq Company

- **HR Analytics Dashboard (Power BI + Power Query):**
- Built an HR analytics dashboard tracking **attendance of 500+ employees** across multiple departments.
- Developed KPIs (Work-from-Home %, Presence %, Sick Leave %) to identify patterns, reducing absenteeism-related queries by **30%**.
- Delivered insights that **improved workforce efficiency by 15%** and reduced manual reporting time from **6 hours to 1 hour weekly**.
- Transformed raw HR data using Power Query and applied DAX for advanced calculations, ensuring **95% data accuracy**.
