EDUCATION AND TECHNICAL BACKGROUND

Indian Institute of Information Technology (IIIT) Kota

Bachelor of Technology, Computer Science and Engineering (with specialization in AI and ML)

Current CGPA: **8.25/10** | Expected Graduation: **June 2025**

Courses: Database Management Systems, Operating Systems, Data Structures and Algorithm, Probability and Statistics, Natural Language Processing, Deep Learning

Class XII: 95.6%, Science (PCM), CBSE (Kendriya Vidyalaya O.N.G.C. Panvel), Year: 2021

Class X: 87.4%, CBSE (Kendriya Vidyalaya O.N.G.C. Panvel), Year: 2019

SKILLS AND CERTIFICATIONS

Programming Languages: Python

Databases: MySQL, MongoDB, PostgreSQL

Web Development: HTML, CSS

Scientific Computing: NumPy, SciPy

ML & AI: Scikit-learn, Clustering & Dimensionality Reduction (PCA, LDA, MDS, Hierarchical Clustering, Spectral CoClustering), Time Series Analysis, tslearn, LLMs.

Data Visualization: Tableau, Excel, Plotly, Matplotlib

Tools & IDEs: VS Code, Google Colab, GitHub, Slack, Draw.io

Operating Systems: Windows (10, 11), Linux

Office Software: Google Workspace, MS Office

1. **SQL and Relational Databases** | **IBM** | SQL, Database Management, Data Querying | [Credentials](#) |

2. **Python for Data Science** | **IBM** | Python, Pandas, NumPy | [Credentials](#)

WORK EXPERIENCE

Data Science Intern | Melio (Remote – Santa Clara, CA)

(Feb, 2025 - Present)

- Designed and implemented robust **ETL and ML pipelines** to automate extraction, transformation, and loading of experimental data for downstream analysis.
- Created an interactive dashboard and visualizations for data exploration and classification of assay outcomes.
- Architected and evaluated predictive models and clustering algorithms to classify assay results using extracted features.
- Acted as a **liaison between the Assay and Data Science teams**, ensuring effective communication and alignment of technical and scientific goals.

Data Analyst Intern | KultureHire

(Oct, 2024 – Dec, 2024)

- Conducted **prescriptive and descriptive analysis** on Career Aspirations of Gen Z.
- Documented problem statements, cleaned and standardized data (50,000+ rows) with Excel **Power Query** and **VBA**.
- Designed interactive dashboards in **Excel** with **15+** Pivot Tables to extract insights from the data.
- Performed **hypothesis testing** using **MySQL**, writing efficient queries to validate data trends.
- Gained expertise in Excel and Power BI Dashboarding and advanced MySQL query writing.

PROJECTS

Twitter Sentiment Analysis with Predictive Modelling | Python | ML | NLP | Scikit-learn | Pandas

- Developed a **sentiment analysis model** to classify tweets as positive or negative, leveraging the **Sentiment140 dataset** of 1.6 million tweets for training.
- Built a machine learning model using **Logistic Regression**, with text preprocessing techniques such as tokenization, stopword removal, and stemming, and feature extraction via **Tf-Idf vectorization**.
- Achieved 77.6% accuracy** on test data and stored the trained model using **Pickle** for efficient sentiment prediction in real-time applications.

Grasping Points Detection for Object Manipulation | Python | PyTorch | Deep Learning | Robotics

- Engineered a deep learning model using **Convolutional Neural Networks (CNNs)** to predict optimal grasping points for robotic arms, trained on the **Cornell Grasping Dataset**.
- Utilized **PyTorch** for model implementation focusing on real-time grasp synthesis from depth images.
- Achieved **83% accuracy** in predicting grasping points, demonstrating the application of **robotic grasping** techniques in robotic arm manipulation tasks.

EXTRA-CURRICULAR AND ACHIEVEMENTS

- College Clubs:** Artive (Fine Arts Club), Fit India Club (FIC), Capture (Photography Club)
- Served as **Décor Secretary** for the Creative Arts and Cultural Society at IIIT Kota.
- Sports:** Intra IIIT Kota 2022, 2023 and 2024 Football Winner, Athletics 400m Runner-up, demonstrated perseverance and competitive spirit.
