SUMMARY

I am a detail-oriented Business Analyst with expertise in data-driven insights across e-commerce and retail operations. I excel in building SQL-based dashboards, optimizing marketing funnels, and delivering actionable business recommendations. With my skills in campaign analytics and experience collaborating cross-functionally, I drive businesses toward growth through effective data utilization

EXPERIENCE

Business Analyst Intern

SaiitronTech Software Solution

📅 01/2025 - 06/2025

- Assisted in gathering and documenting business requirements through stakeholder interviews, surveys, and process mapping
- Analysed datasets using Excel and SQL to identify trends, patterns, and opportunities for process improvement
- Collaborated with marketing and product teams to define KPIs, run A/B tests, and deploy campaign strategies that improved retention by 15%
- Created and implemented Excel reports and Power BI performance dashboards using SQL queries on cloud-hosted databases

Data Annotator

Videoverse

📅 04/2023 - 08/2023

- Annotated and labeled over 100,000 data points with 99% accuracy, following specific guidelines and quality standards.
- Provided valuable feedback on annotation guidelines, leading to a 20% faster annotation process and improved model performance.
- Maintained meticulous documentation, resulting in a 50% reduction in annotation errors and improved project tracking.

Content Operation Executive

Videoverse

📅 05/2022 - 07/2023

- Spearheaded the real-time editing and publishing of cricket match highlights during live broadcasts, ensuring immediate delivery of captivating moments to a global audience.
