

Harshit Chugh

+91 7665056712 | 10harshit2003@gmail.com | <https://www.linkedin.com/in/harshitchugh2810>

Professional Summary

Motivated and detail-oriented Data Analyst with hands-on experience in SQL, Python, Power BI, and data visualization. Proficient in analyzing large datasets, creating insightful dashboards, and building machine learning models. Passionate about solving real-world business problems and continuously expanding analytical skills through self-driven projects and formal training. Skilled at translating business requirements into technical solutions and communicating data-driven insights to cross-functional teams. Eager to contribute to fast-paced environments where data plays a key role in decision-making.

Experience

Ducat Institute Noida
Data Science & Analytics Trainee Dec/2024 – Apr/2025

- Covered Python, SQL, Power BI, and ML basics through hands-on projects.

Education

Dr. Bhimrao Ambedkar University Agra
Bachelor of Computer Applications (2022–2025) | 75%

Saraswati S V P Sr. Sec School Sikri(Raj.)
Intermediate (2020) – 80%

Saraswati S V P Sr. Sec School Sikri(Raj.)
High School (2018) – 77%

Technical Skills

- Languages: Python , SQL
- Libraries: Pandas, NumPy, NLTK, scikit-learn
- Database: MySQL
- Data Visualization: Power BI, Microsoft Excel
- Data Handling & Analysis: Exploratory Data Analysis (EDA), Data Cleaning
- Machine Learning: Cosine Similarity, KNN, Logistic Regression, Naive Bayes

Projects

Pizza Sales Dashboard – Power BI + SQL:

- Analyzed pizza sales data using SQL.
- Built an interactive Power BI dashboard to track revenue, peak hours, and top-selling pizzas (GitHub: <https://github.com/HarshitChugh0628/Pizza-Sales>)

Movie Recommendation System:

- Content-based recommendation system using cosine similarity and NLP. (GitHub: https://github.com/HarshitChugh0628/Movie_recommendation_Hindi)

IPL Data Analysis Project – Power BI + SQL:

- Analyzed Indian Premier League data to extract team performance insights, player metrics, and match trends.
- Developed a visually appealing Power BI dashboard with slicers and charts for interactive exploration.
- Highlighted key KPIs to support cricket analytics and performance evaluation.
(GitHub: https://github.com/HarshitChugh0628/IPL_Data-Analysis)

LENS – Multi-Model Text Classification (Python, Streamlit ,NLP):

- Built an interactive NLP application with four ML models (spam detection, sentiment analysis, language detection, and news categorization) using Python and Streamlit.
- Trained models using scikit-learn, TF-IDF, and saved via joblib for efficient deployment.
- Enabled real-time single-input prediction and batch TXT upload for bulk classification.
(GitHub: https://github.com/HarshitChugh0628/LENS_project2025)

Certifications

Python for Machine Learning – Certificate:

<https://drive.google.com/file/d/18ZCGcNeGH65gHhbDqEOHZZysEETQtmRH/view>

Data Science Foundation – Certificate:

https://drive.google.com/file/d/1JPhZFcgIT0udrXn3_3vygdgHrtH2Zj-D/view

Achievements & Impact

- 🏆 Designed and published an IPL analytics dashboard using Power BI, enabling dynamic data exploration and enhancing user insights into team and player performance across seasons.
- 🧠 Demonstrated insight generation by highlighting top-performing players and most consistent teams across seasons.
