EDUCATION

Chandigarh University

Bachelor of Engineering in Computer Science

Mohali, Punjab

Aug. 2021 – May 2025

PROJECTS

VideoTube | JavaScript, Node.js, Express.js, MongoDB, Mongoose, Cloudinary

Oct 2024 - Dec 2024

- Engineered a secure backend system using **Node.js** and **Express.js**, enabling seamless video and photo uploads for user profiles, while ensuring **90%** uptime and minimal latency during peak usage times.
- Devised an **authentication** protocol using **access and refresh tokens**, establishing a secure environment for user login, logout, and profile management, improved user experience.
- Enhanced user engagement by displaying subscriber and subscription details on profiles/channels, improving visibility metrics.

Workload Manager Pro - React Routing | React.js, JavaScript, Tailwind, Git/GitHub

June 2024

- Engineered a modular routing architecture utilizing **React Router DOM**, facilitating **95.7%** uptime and reducing page load times by **400ms** across website routes for improved user experience
- Optimized **component structure** for better route inheritance, ensuring efficient rendering of child components within parent layouts.

RazorPay Frontend Clone | Tailwind, HTML/CSS, Git/GitHub

Oct 2023 – Nov 2023

- Replicated Razorpay's front-end, creating a **responsive** fintech platform replica, and delivered **100% pixel-perfect accuracy** across **15** distinct web and mobile views which lead to efficiency gains for the UX team.
- Implemented animations and UI elements using **Tailwind**, improving user interactivity and page responsiveness.

Parallax Website | HTML/CSS, Git/GitHub

Aug 2023 – Sept 2023

- Created a 3D animated **parallax** website with smooth scrolling effects for enhanced user experience.
- Awarded '**Best Mini Project Presentation**' out of **20** teams by faculty for innovative design and functionality.

HealthBridge - Medicine Donation Website | JavaScript, Angular.js, Express.js, SQL

June 2022 – July 2022

- Developed a full-stack web application enabling online medicine donations, connecting donors with those in need.
- Architected a **REST API** using Node.js and Express.js, enabling streamlined data transfer between the Angular frontend and SQL database, reducing page load times by **35%** and enhancing user experience.
- Integrated **authentication** and a user-friendly interface to streamline the donation and collection process.

TECHNICAL SKILLS

Languages: C/C++, JavaScript, Java, Python

Frameworks: Tailwind, Bootstrap, Express.js

Libraries: Node.js, React.js, Mongoose

Database: MongoDB, MySQL

Developer Tools: Git, GitHub, VS Code, Postman, Linux commands, Netlify, Vercel, Npm

Relevant CourseWork: OOP, CN, DBMS, OS

RESEARCH AND PUBLICATIONS

Anti-Money Laundering System using Blockchain

Aug 2024 - Oct 2024

- Published in **IEEE**, showcasing innovative research in blockchain and financial security.
- Proposed a decentralized approach to detect and prevent suspicious financial transactions in real time.

SOFT SKILLS

- Quick Learner and Adaptable to New Technologies.
- Strong Problem - Solving and Analytical Skills.
- Excellent Communication and Teamwork Abilities.
