OBJECTIVE

Aspiring Data Analyst with strong foundation in Excel, SQL, and Power BI, seeking to contribute analytical and problem-solving skills to support data-driven decision-making in a dynamic IT environment.

EDUCATION

- B.Tech – Electronics and Communication Engineering | Chadalawada Ramanamma Engineering College (Autonomous) | CGPA: 8.4 | 2020 – 2024
- Intermediate – MPC (Maths, Physics, Chemistry) | Narayana Junior College | CGPA: 7.73 | 2018 – 2020
- SSC – Secondary School Certificate | Narayana English Medium High School | Percentage: 97% | 2018

PROFESSIONAL INTERN

Data Analyst Intern -Besanth Technologies

- Analyzed Excel data using pivot tables, charts, and formulas.
- Developed dashboards using Power BI for sample datasets.
- Wrote SQL queries to retrieve and filter data from relational databases.
- Gained practical exposure to data cleaning, reporting, and visualization.

SKILLS

- **Analytical Tools:** Advanced Excel,Power Point,Power BI
- **Programming Language:** SQL,Python,MySQL
- **Platforms:** Amazon Web Services (AWS)-Cloud Computing

PROJECTS

Smart Soldier Strap | Final year

A predictive model for early detection of soldier health condition using Arduino. project is regarding “Smart Soldier Strap”. In this project I have explained how to track the location of the soldier with the help of GPS and also able to monitor health parameters such as pulse rate and body temperature .The measured parameters will be send to the control room with the help of GSM module to know the condition of the soldier. If the soldier is injured the fluctuations with the heartbeat and the pulse rate will be measured and will informed the military base station and through GPS we can locate the wounded soldiers.

Annual Sales Of A E-Commerce Clothing Store In The Year 2024 | EXCEL

- Analyzed the 2024 annual sales report for E-Commerce Clothing Store to identify trends, understand customer behavior. and generate actionable insights for increasing sales in the upcoming year.
- Cleaned and preprocessed raw data to ensure accuracy and consistency using Excel.
- Performed data analysis to uncover key performance indicators, sales patterns, and customer demographics.
- Designed and developed an interactive dashboard to visualize data trends, enabling store managers to make informed business decisions.https://github.com/jabadechitra/Excel_Project

INTERNSHIPS

- Data Analyst Internship – Besanth Technologies
- AWS Virtual Internship – Brain O Vision
- Full Stack Web Development Internship – Slash Mark (AICTE Supported)
- Python Programming – CodeTantra

CERTIFICATIONS

- Certified in Code Tantra of Python Programming.

CURRICULAR ACTIVITIES

- Participated in Paper Presentations and Tech Contests

LANGUAGES

Telugu | Hindi | English | Marathi
