Objective

To secure a Junior Business Analyst position where I can utilize my skills in requirements gathering, process improvement, root cause analysis, and contribute to impactful business and IT solutions

Summary

- In-depth understanding of SDLC phases, including Waterfall and Agile methodologies.
- Proficient in Waterfall Model: Gathered requirements using elicitation techniques such as brainstorming, document analysis, and interviews. Prepared BRD, FRD, and RACI Matrix to define project scope and deliverables.
- Experienced in root cause analysis (RCA), problem management support, and task management.
- Skilled in creating UML diagrams, wireframes, and prototypes to visualize workflows and system designs.
- Knowledgeable in Agile Scrum: Created user stories with acceptance criteria, prioritized requirements using MOSCOW, and maintained Sprint & Product Backlogs.
- Participated in Agile ceremonies such as sprint planning, sprint review, and daily stand-up meetings to ensure smooth project execution.

Education

Matoshri College Of Engineering , Nashik

Completed Bachelor of Engineering in Artificial Intelligence & Data Science

CGPA : 8.14

2021 – 2024

K.K.Wagh Polytechnic, Nashik

Diploma in Information Technology

Percentage : 87.07%

2018 – 2021

Work Experience

SunOrbit Consulting – Business Analyst

March 2025 – Present

Joined as the **Business Analyst** in the organization and helped set up a clear and structured way of working for the project team. My work made it easier for the team to understand the client's needs and begin development with confidence.

- Took the lead in **gathering requirements** by talking to clients and team members, and created important documents like **BRD** and **SRS** to explain the features and needs clearly.
- Helped move the project from the **planning stage to development** by ensuring all requirements were clearly understood and documented.
- **Introduced JIRA** to the team for tracking tasks, user stories, and bugs—this brought better clarity, planning, and team coordination.
- Set up basic **Scrum practices** such as sprint planning and daily stand-ups, which improved communication and helped the team stay on track.
- As the first BA, I made the project process **more organized, transparent, and easier to manage**, saving time and reducing confusion for both the team and the client.

Projects

Luroxa E-commerce Application

- Interacted with the stakeholders and gathered requirements by using various elicitation techniques.
- Created user stories with appropriate acceptance criteria with the assistance of the Product Owner. Added user stories into product backlog using the JIRA tool.
- Prioritized and validated the requirements using Moscow and FURPS technique, added user stories to sprint backlog based on prioritization order.
- Collaborated with Product Owner and Scrum Master for BV and CP. and assisted the Product Owner for the creation of DOR and DOD checklist.
- Participated in sprint ceremonies to remove road blocks in the project.

- Generated Sprint, Product Burn down/Burn up charts to track the project progress.
- Participated in product planning and UAT to successfully deliver each sprint component.

Airline Reservation System

- Conducted Enterprise Analysis and under the assistance of a senior BA in creating a Business Case Document, conducted Stakeholder Analysis, and prepared RACI Matrix.
- Gathered requirements from business heads using Elicitation Techniques and created a Business Requirements Document (BRD).
- Translated BRD into Functional Requirements Document (FRD), Collaborated with the technical team, and prepared SRS Document.
- Created UML diagrams and wireframes to visually represent requirements using MS Visio, Balsamiq, and Axure. Created and maintained RTM throughout the project.
- Assisted in Testing Team by preparing Test Case Scenarios and ensured the UAT was successful

Skills

- **Technical Skills** - Python, SQL, C, C++, Excel, Power BI, Balsamiq, Axure, Visio
- **Core Competencies** - Business Analysis Planning and Monitoring, Elicitation and Collaboration, Requirement Life cycle Management, Requirement Analysis and Design Definition, Stakeholder management , Strategy Analysis , Solution Evaluation , Project management
- **Soft Skills** - Communication Skills , Analytical Thinking , Problem-Solving , Teamwork & Collaboration

Certifications

- IIBA endorsed Certification in Business Analysis (COEPD)
- SQL Certification (Hacker Rank)
