

Jayesh Shankar Jadhav

Data Analyst

📍 Ghansoli ✉ jayeshshankarjadhav@gmail.com ☎ 9321619265 📁 Portfolio in LinkedIn 🐙 Github

Objective

Aspiring Data Analyst with a strong foundation in data science, analytics, Research and machine learning. Proficient in Python, Power BI, SQL, Streamlit and Automated Reporting. Seeking an opportunity to apply data-driven decision-making skills and analytical thinking to support business intelligence and drive meaningful insights.

Education

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
Msc Data Analytics	Pillai College Of Arts Commerce And Science	8	May 2025
Bsc IT	Pillai College Of Arts Commerce And Science	8.32	May 2023
HSC	CBSE	77.8	April 2020

Technical Skills

- **Programming Languages:** Python, SQL, R, JavaScript, PHP, HTML, CSS
- **Libraries and Frameworks:** Pandas, NumPy, Matplotlib, Scikit-learn, OpenCV, TensorFlow, Keras
- **Visualization Tools:** Power BI, Excel
- **Web Frameworks:** Flask, Streamlit
- **Database:** MySQL, MongoDB
- **Other tools:** Git, Visual Studio, VS code

Internships & Virtual Projects

PwC SDC, Power BI Dashboard Intern (Virtual Simulation)

- Designed interactive Power BI dashboards to visualize KPIs and HR data.
- Identified gender imbalance trends and proposed data-driven solutions.
- Communicated findings effectively through email reports to stakeholders.

Accenture(Forge), Data Visualization with Excel (Virtual)

- Analyzed 7 data sets were analyzed to uncover trends for a social media client.
- Created an executive presentation with insights and recommendations.

Projects

Personalized Mutual Fund Recommendation System

- Developed a machine learning-based recommendation system to suggest mutual funds based on user income, goals, and risk appetite.
- Integrated a financial literacy advisor to educate users on fund selection.
- Built a responsive web app using Streamlit for frontend and Flask for backend.

Tech Stack: Python, Scikit-learn, Streamlit, Flask

Weapon Detection System using YOLOv8

- Built a real-time weapon detection model using the YOLOv8 architecture and OpenCV for video stream processing.
- Trained the model on a custom-labeled dataset to accurately detect weapons in images and videos.
- Integrated a simple UI using Streamlit for users to upload media and visualize de-

Tech Stack: Python, OpenCV, TensorFlow, Streamlit

tection results instantly.

HR Data Dashboard & Analysis (PwC Virtual Internship)

- Built an interactive Power BI dashboard to visualize HR KPIs and workforce metrics.
- Conducted trend analysis on gender diversity and proposed actionable recommendations.
- Communicated insights effectively through stakeholder-friendly reporting.

Tech Stack: Power BI

Portfolio Websites (3 Versions)

- Designed and published three portfolio websites, showcasing skills and growth in front-end development.
- Latest version is fully responsive and highlights projects, contact, and skills.
- Enhanced UI/UX through layout improvements and mobile responsiveness.

*Tech Stack:
HTML, CSS, JavaScript*

Key Strengths

- Strong analytical and problem-solving skills
- Passionate about data visualization and model-driven insights
- Experience with both frontend and backend systems
- Skilled at building dashboards and data pipelines
- Effective communicator with exposure to client-based projects
