SUMMARY

I am currently a MBA-IT '26 batch student studying at SICSr, Pune with a strong interest in the field of Data Analytics, Business Analysis and Project Management continuing to develop my skills in business strategy along with IT and analytics. I am passionate about transforming raw data into actionable insights that drive decision-making and business growth. With two years of professional experience as a Quality Engineer and Site Engineer at SP Singla Construction Pvt Ltd and under PWD I have developed a strong foundation in quality assurance processes, project management, and cross-functional collaboration.

INTERNSHIP EXPERIENCE

- CODTECH IT SOLUTIONS PVT LTD(duration 1 month).
- SAIKET SYSTEMS(duration 1 month).

CERTIFICATIONS

- 1)IBM PYTHON FOR DATA SCIENCE.
- 2)IBM DATA ANALYSIS WITH PYTHON.
- 3) IBM INTRODUCTION TO CONTAINERS,KUBERNETS AND OPNSHAFT V2.
- 4)GOOGLE FUNDAMENTALS OF DIGITAL MARKETING.
- 5) COURSERA PROFESSIONAL CERTIFICATION ON DATA ANALYTICS BY GOOGLE.
- 6) DATA SCIENCE & AI MASTERS 2025 – FROM PYTHON TO GEN AI (UDEMY) .
- 7) AGILE PROJECT MANAGEMENT: AGILE, SCRUM, KANBAN & XP (UDEMY).

EDUCATION

Symbiosis Institute of Computer Science and Research, Pune, Maharashtra

2024-2026

Master of Business Administration, Information Technology.

Semester I CGPA : 7.43

Semester II CGPA : 7.79

Assam Science and Technology University,Guwahati,Assam

2015-2019

Civil Engineering , Bachelor of Technology.

Final CGPA : 6.51

SKILLS

- 1) Programming: PHP, SQL, Python.
- 2) Technical: AI ML predictive analysis using machine learning, Bigdata analysis, Sentimental analysis.
- 3) Software: MS Suite, MS Power BI, Jupyter Notebook, MY SQL, Jira, Draw.io(visualising data),Canva.
- 4)Soft Skills: Honesty, Accountability, Critical and Strategic Thinking, Active Listening, Communication, problem Solving.

PROJECTS

1) POWER BI PROJECT ON GLOBAL CYBERSECURITY THREAT 2015-2024.

Analyzed 3,000 global cybersecurity incidents (2015–2024) to uncover threat patterns, financial impact, and sector-wise vulnerabilities. Delivered actionable insights on attack trends and the effectiveness of defense strategies like AI-based detection and VPNs.

2) POWER BI PROJECT ON LINKEDIN JOB POSTING

Developed an interactive Power BI dashboard to visualize salary trends and job postings across roles and categories. Used Power Query and DAX to deliver clear, user-friendly insights that supported data-driven hiring and salary decisions.

3) PREDICTIVE ANALYSIS OF AIRQUALITY INDEX

Conducted EDA and built machine learning models to analyze air quality data, identifying key pollutants and predicting AQI levels. The project provided actionable insights into pollution patterns and supported proactive air quality monitoring.

4) BIG DATA ANALYSIS ON BANK DATASET

Analyzed air quality data using EDA and machine learning to identify key pollutants and predict AQI levels. Delivered insights to support pollution classification and enhance air quality monitoring efforts.

5) PREDICTIVE ANALYSIS ON TELCO CUSTOMER CHURN DATASET

Performed EDA and developed churn prediction models using Decision Tree and Random Forest on Telco customer data. Identified key churn drivers and delivered insights to support customer retention strategies.

6) SENTIMENTAL ANALYSIS ON AMAZON ALEXA REVIEW DATASET

Conducted sentiment analysis on Amazon reviews using NLP techniques and classification models in Jupyter Notebook.

7) DEVELOPING AN E-COMMERCE GIFTING APP AS A BUSINESS ANALYST

Acted as Business Analyst for a mock AI-powered e-commerce app, "GiftMate," focused on personalized gift recommendations. Gathered requirements, managed workflows in Jira, and ensured team alignment through agile practices.

WORK EXPERIENCE

Site Engineer, PWD.

November 2019-December 2021

- Overseeing construction activities to ensure compliance with design specifications, safety standards, and quality control measures.
- Conducting site surveys and soil tests to gather data for project planning. Analyzing the data for informed design and construction methods.
- Inspect and test construction materials (such as cement, sand and aggregates) to ensure they meet quality standards before they are used on-site.

Quality Engineer, SP Singla Construction Pvt Ltd.

February 2021-August 2021

- Inspect and test construction materials (such as cement, sand and aggregates) to ensure they meet quality standards before they are used on-site.
- Overseeing testing procedures for materials and construction methods, ensuring proper documentation and reporting of results.
