

VIDYA BOINWAD

Pune, Maharashtra

+91 7741867870 vidyaboinwad24@gmail.com [LinkedIn](#) [GitHub](#)

EDUCATION

Savitribai Phule Pune University
Bachelor Of Computer Application (CGPA – 9.2)

September 2021 - June 2024
Pune , Maharashtra

EXPERIENCE

Data Visualization Intern

July 2024 – August 2024

[Tata Group](#)

- Created dynamic **dashboards in Power BI** to visualize **key performance** metrics, facilitating data-driven decision- making for stakeholders.
- **Utilized Excel for data cleaning and analysis**, employing **pivot tables** and statistical functions to extract actionable insights from complex datasets.
- Optimized legacy workflows, increasing **reporting** analyzing accuracy to **80%**.

Data Analyst Intern

Feb 2025 – May 2025

[UptoSkills](#)

- Analyzed and cleaned datasets, improving data quality by **95%** using **Python (Pandas, NumPy)** and Excel.
- Conducted **exploratory data analysis (EDA)** that uncovered trends leading to a **15%** improvement in campaign performance.
- Developed interactive dashboards in **Power BI**, enhancing stakeholder decision-making speed by **30%**.

TECHNICAL SKILLS

Languages: C, Python, SQL

Technologies: Machine Learning, NumPy, Pandas, Matplotlib, Seaborn, SK-Learn ,Tensor flow , Deep Learning

Computer Essential: ML Algorithms, OOPs, DBMS

Operating System: Windows

Tools: Git, GitHub, VS Code, MS office

PROJECTS

Airlines Satisfaction Prediction|Vs code, MachineLearning, NumPy, Pandas, Matplotlib | [Link](#)

- Customer Satisfaction Detection system using **machine learning algorithms** to accurately identify Airlines Services patterns and **forecast future purchases**, enhancing targeted marketing strategies and customer engagement.
- Implemented **data preprocessing, feature engineering**, and model evaluation, achieving a **93%** increase in predictive accuracy.

Employee Retention Prediction |Vs code, Machine Learning, NumPy, Pandas, Matplotlib | [Link](#)

- Employee Retention Prediction executes **historical housing data** to predict future Employee recession. Applies **data preprocessing, feature engineering, and regression algorithms** for accurate predictions.
- Splits the dataset into **training (80%)** and **testing (20%)** to evaluate performance. Implements **visualizations (Matplotlib, Seaborn)** to analyze trends.

Data Scientist Salary Dashboard |Power Bi, Scientist Salary Database| [Link](#)

- Collected and cleaned Data Scientist Salary data from multiple sources (Excel, SQL database). Created **interactive dashboards** with **filters, charts, and KPIs** for better insights.
- Salaries differ significantly between **tech hubs (e.g., Silicon Valley, Bangalore) and other regions**. Improved Salary strategies and team decision-making by **80%**.

CERTIFICATIONS

Certification in **Data Analysis with Python** by IBM [\[Credential\]](#)

Certification in Data Science by Simplilearn [\[Credential\]](#)

Certification in **Python with Data Science** by IBM [\[Credential\]](#)

Certification in **Machine Learning with Python** by IBM [\[Credential\]](#)

ADDITIONAL INFORMATION

- Soft Skills: Problem-Solving, Critical Thinking, Communication, Attention to Detail.
- Languages: English, Hindi, Marathi.
- Interests: Cooking, Travelling. Conducted necessary group discussion to analyze thoughts of each student those who wanted to share their own opinion.
