Career Objective

Recent B.Tech. graduate with a strong passion for uncovering insights through data. Eager to apply analytical thinking and problem-solving skills to drive business decisions and continue growing in data and technology-driven environments.

Education

Indian Institute of Technology (IIT) Roorkee

2021 - 2025

B.Tech. in Electrical Engineering

Projects

Amazon Global Superstore Dashboard | *Power BI, Excel, Power Query, DAX*

June 2025

- Developed an **interactive dashboard** using **Power BI** to visualize KPIs like **sales**, **returns**, and **profit** across global regions, analyzing over **10K+ records**.
- Performed **data cleaning**, transformation, and **data modeling** using **Power Query** and created relationships for **real-time KPI tracking**.

E-commerce Sales and Profit Analysis | *Python, Pandas, Matplotlib, Seaborn*

Apr 2025

- Analyzed 12-month sales data to identify monthly trends, revealing **December** and **January** as peak profit periods.
- Identified top-performing categories like **Technology and Phones** and segmented customers across **Consumer, Corporate, and Home Office**.
- Visualized **sales-to-profit ratios**, uncovering a **25% efficiency gap** between product lines to guide optimization.

Real Time Application for Emotion Detection | *Python, TensorFlow, Keras*

May 2024

- Built a **CNN** model to detect human emotions from facial images with 80%+ accuracy.
- Designed a **Python** GUI to enable users to upload images and view real-time emotion predictions.
- Implemented end-to-end emotion detection pipeline combining deep learning and computer vision techniques.

Experience

Data Science Internship | NullClass Ed Tech Pvt Ltd

June 2024 - Jul 2024

- Built LSTM and CNN models for emotion and gesture recognition, achieving **85%+ accuracy** on real-world datasets.
- Applied **MFCC feature extraction**, data augmentation, and normalization techniques to improve training robustness.
- Built modular end-to-end pipelines in **Jupyter Notebook** using **TensorFlow, Keras, Librosa, and OpenCV**, and automated model evaluation using F1-score and accuracy metrics.

Technical Skills

- Analytical Tools:** Advanced Excel, Power BI, Power Query
- Languages:** Python, SQL, C++
- Libraries:** Pandas, NumPy, Seaborn, Matplotlib

PoR and Extra Curriculars

Events Manager Conclave 2.0 | NSS, IIT Roorkee

Mar 2023 - Apr 2023

- Led planning and execution of an orphanage outreach program involving **30+ volunteers**, logistics coordination, and stakeholder communication. Managed social impact events including plantation drives and blood donation camps with over **100+ participants**.

Executive Member | NSS, IIT Roorkee

Apr 2022 - June 2023

- Mentored underprivileged students for the **JNVST exam**, improving academic outcomes through structured sessions. Delivered career guidance and skill-building workshops, reaching **150+ students** across community schools.
