SUMMARY

Highly motivated and detail-oriented graduate with a strong foundation in data analysis, statistics, data visualization and database management. Proficient in Python, SQL, Excel and Power BI to analyze and interpret data for actionable insights. Completed projects involving data cleaning, exploratory data analysis, and visualization. Strong problem-solving skills and a passion for turning data into meaningful insights to support decision-making. Eager to apply analytical skills in a dynamic environment to drive business outcomes and gain real-world experience.

SKILLS

- **Data Analysis:** Proficient in Excel, SQL, Power BI and Python for data analysis and reporting.
- **Data Visualization:** Experienced in creating dashboards and visual reports using Power BI.
- **Database Management:** Skilled in MySQL database design and management.
- **Programming:** Knowledge of Python for data manipulation and analysis.

PROJECTS

Project: Diwali Sales Analysis.

- Analyzed 11,239 sales records and revealed that over 60% of purchases were driven by female customers, with married women aged 26-35 years contributing to nearly 40% of total sales.
- Identified that customers from Uttar Pradesh, Maharashtra, and Karnataka accounted for over 45% of Diwali sales revenue, majorly purchasing Food, Clothing, and Electronics items.
- Delivered actionable insights by visualizing demographic and occupational trends, enabling better targeting of the top 3 customer segments responsible for 50%+ of total sales volume.

Project: Super Store Sales Analysis.

- Developed an interactive Super Store Sales Dashboard in Power BI, analyzing over 22K orders to provide insights into sales, profit, and customer segments.
- Visualized sales trends by region, payment mode, category, and ship mode, enhancing data-driven decision-making for inventory and marketing strategies.
- Utilized advanced data visualization techniques, including dynamic filters and drill-down capabilities, to improve report usability and stakeholder engagement.

Project: Music Store Analysis.

- Analyzed music store sales data using MySQL to identify top customers, cities, and revenue-generating countries.
- Built optimized SQL queries to determine best-selling artists and popular genres across regions.
- Delivered customer and sales insights by querying over 3,000 records.

Project: Coffee Shop Sales Analysis.

- Conducted data analysis on Coffee Shop sales using Microsoft Excel, analyzing over 149,116 footfalls and generating insights on \$698,812.33 in total sales.
- Developed an interactive dashboard featuring time-based trends, category distribution, and top-selling products, enabling data-driven decision-making.
- Identified key performance metrics including 4.69 Average Bill/Person and 1.44 Average Order/Person, optimizing sales strategies and customer engagement.

Project: Vrinda Store Annual Report.

- Analyzed sales data for Vrinda Store Annual Report 2022 using Microsoft Excel, examining over 12 months of transactions across multiple channels and categories.
- Designed an interactive dashboard with 6 dynamic visualizations, including sales vs. orders trends, demographic insights, and top-performing states, enhancing data-driven decision-making.
- Improved reporting efficiency by 40% through the use of pivot tables and slicers, enabling stakeholders to filter and drill down into sales and order metrics effortlessly.

EDUCATION

Bachelor Of Science (B.Sc.) in Information Technology(Mumbai University)	7.78 CGPA
Rizvi College Of Arts, Science & Commerce	2021 - 2024

ACHIEVEMENTS & CERTIFICATIONS

- | | |
|---|--------------------|
| • The Ultimate Complete Microsoft Excel (Udemy) | 23 Oct 2024 |
| • The Ultimate Complete Python Programming Course (Udemy) | 1 July 2024 |
