Visakhapatnam, Andhra Pradesh | P: 8309643648 | revathikarri02@gmail.com | [LinkedIn](#) | [Codechef](#) | [Leetcode](#) | [Github](#)

EDUCATION

VIGNAN's INSTITUTE OF INFORMATION TECHNOLOGY

Bachelor of Technology in Computer Science; CGPA: 8.9/10

SRI CHAITANYA JUNIOR COLLEGE

Intermediate First and Second year; Marks: 960/1000

Duvvada, Andhra Pradesh

Expected April 2026

Visakhapatnam, AP

2020-2022

INTERNSHIPS

COGNORISE INFOTECH

Python Development Intern

May 2024 - June 2024

- Built a dice rolling simulator, dynamic rock paper scissors game, a random password generator using python during the internship period. [view here](#)

COGNIFYZ TECHNOLOGIES

Power BI Intern

Feb 2025 – Mar 2025

- Built interactive dashboards using POWER BI on the data set containing various investment preferences of the people, savings objectives according to their ages and the sources that affected their investment preferences. [view here](#)

PROJECTS

CALL CENTER TRENDS DASHBOARD: Under the guidance of “PWC: Power BI Job Simulation”, I’ve created an interactive dashboard using POWER BI to represent the call center trends, customer retention and diversity & inclusion using the dataset of a call center.

BUSINESS ANALYTICS DASHBOARD: During the "TATA: Data Visualization Job Simulation", I developed business scenarios and created effective data visualizations using TABLEAU to communicate insights and analysis

COVID DATA ANALYSIS: Cleaned and transformed raw datasets using **PYTHON** and **POWER QUERY** in Power BI. Built an interactive dashboard by preprocessing data to enable accurate, insightful visualizations. [view project](#)

CERTIFICATIONS

CISCO

- Python Essentials-1** : Acquired fundamental Python programming skills, including variables, data types, conditionals, loops, and functions, through the Cisco Python Essentials-1 course.

SKILL NATION

- Power BI** : Developed proficiency in creating interactive data visualizations and insightful dashboards using Power BI.
- Tableau** : Gained expertise in data visualization and storytelling by mastering Tableau's capabilities for creating insightful dashboards and reports.
- SQL** : Skill acquired in communicating with and extracting insights from relational databases through SQL.
- Microsoft Excel** : Acquired proficiency in Microsoft Excel, including formulas, functions, pivot tables, and charts, for data analysis and reporting.

COURSERA

- Google AI Essentials** : Introduction to core AI concepts and their practical uses.
- Google Prompting Essentials** : Essential guide to crafting effective prompts for AI models.

UDEMY

- Data analytics using python** : Data analysis using Python, covering data manipulation, cleaning, visualization, and statistics.

ADDITIONAL

Skills: HTML, CSS, Javascript

Languages: Fluent in English, Telugu . Basic in Hindi.

Certifications & Internships: Javascript essentials-1(CISCO), Web-development internship(Academor and Intrainz) Python Development internship(TechnoHacks).

Achievements: Earned Gold and Diamond badges for participating in 50 and 100 contests on Codechef.
