SUMMARY

I view this position as a long-term opportunity to collaborate with cross-functional teams, enhance my skills in data Analysis , and create impactful data-driven solutions. I have a knack for analyzing complex data, supporting strategic decision-making and driving meaningful product impact through robust data models and visualization.

TECHNICAL SKILLS

- **Power BI Desktop:** Dax Queries & Optimization, Data Modelling, Schemas, Reports & Dashboards, Visualization, Custom Visuals, Publish.
- **Power Query Editor:** ETL Transformations, Data Cleaning, Dimensional Modelling, Data Preparation.
- **Power BI Services:** Workspace Management, Gateway Configuration, Automated Data Refresh, Role-based Access Control.
- **SQL:** Advanced SQL Commands, Stored Procedures, Views, Subqueries for Data Manipulation, Data Modelling.
- **Advanced Excel:** VLOOKUP, Data Validation, Conditional Formatting, Pivot Tables & Charts, Data Analysis.
- **Python:** Data Analysis and Modelling with Pandas and NumPy, Data Visualization with Matplotlib and Seaborn.

TECHNICAL TOOLS

Relational Database Management System	MICROSOFT SQL
BI & Visualization Tool	MICROSOFT POWER BI
Spreadsheet Application	MICROSOFT EXCEL

PROJECTS

Sales Insights - Ice Cream Parlour Business [Power BI]

- Designed a Power BI dashboard to analyse and understand the sales trends of ice cream products. The final dashboard effectively displayed the sales trends of the ice cream parlour, enabling users to interpret the data and make informed decisions.
- This dashboard could potentially help increase revenue by at least 7% in the next quarter.

HR Data Analytics - HR Domain [Power BI | Excel]

- Developed an interactive Power BI dashboard tailored for the HR team to monitor and manage key employee metrics, including working hours, attendance, performance, and leave records. The dashboard streamlined HR workflows, enhanced data visibility, and significantly improved decision-making processes.
- By automating routine tasks and centralizing insights, the solution is projected to save 3-4 hours of manual effort per day for the HR team, boosting overall efficiency and productivity.

Vehicle Sales Data Analysis [Python, EDA]

- Analyzed 100,000+ records to uncover pricing trends, top vehicle makes, and regional distributions.
- Visualized mileage vs. price correlation and fuel type preferences using Python libraries.
- Identified high-demand regions and opportunities for growth in electric vehicles.

EXPERIENCE : Data Analysis / Power BI

NMD Private Limited

January 2024 - 25, Pune

- Built and optimized Power BI visualizations for reporting and data products, transforming raw data into actionable insights for business stakeholders.
- Streamlined data extraction, transformation, and modelling processes to support data-driven solutions and improve product impact.

Trainee Software Developer

April 2023 – December 2023

TECHNOVERT SOLUTIONS Private Limited

Hyderabad, Telangana

- Collaborated on CRM application development and Power Platform integration, including Power Apps and Power Automate.
- Designed Power BI visualizations for enhanced reporting, aligning with business goals and improving data accessibility for end-users.

EDUCATION

Post Graduate Diploma in Advanced Computing (2023)

Centre for Development of Advanced Computing (C-DAC) Hyderabad.

Bachelor of Engineering (2020)

G.H Rasoni College of Engineering, Nagpur.
