PROFILE

To produce a challenging position in a organisation where my knowledge and skills are utilized and meets the need of the current environment to give a creative touch and contribute to the overall success of the organisation.

EXPERIENCE

RMSI

April.2025 - Ongoing

Trainee

- I specialized in spatial data analysis and mapping using tools like QGIS and Fusion X. My responsibilities included creating and managing geospatial datasets, performing spatial queries, and generating detailed maps for decision-making. I supported cross-functional teams with accurate geospatial insights to guide infrastructure and planning projects.

IBM

Jun. 2019

Intern

Artificial Intelligence with Python and IBM Watson

- Worked with IBM, where I developed strong persuasion skills and excelled at independent, industrial-level work. Ready to bring this expertise to new challenges.
- Trained on Traditional and Conventional Machine Learning Techniques and Critical Deep Learning Concept.

EDUCATION

Vellore Institute of Technology

Bhopal, MP

M.Tech - Artificial Intelligence and Data Science

Aug. 2023 – April. 2025

Marri Laxman Reddy Institute of Technology and Management

Hyderabad, TS

B.Tech – Electronics and Communication Engineering

Jul. 2018 – Feb. 2023

Sri Chaitanya Junior Kalasala

Hyderabad, TS

MPC

Jul. 2016 – Mar. 2018

Kendriya Vidyalaya Picket

Hyderabad, TS

SSC

Apr. 2015 – Mar. 2016

PROJECTS

Sales Performance Dashboard for a Retail Chain | *Power BI, Excel*

June. 2025

- Developed a comprehensive sales performance dashboard using Power BI and advanced Excel (PivotTables, VLOOKUP, HLOOKUP) to track key metrics such as total sales, year-over-year growth, profit margins, and top-performing products across multiple regions and time periods.

Employee Performance and Attrition Dashboard | *Power BI, Excel*

April. 2025

- Designed and implemented an interactive HR analytics dashboard using Excel and Power BI to monitor employee performance, analyze attrition trends, and uncover correlations between tenure, department, and satisfaction scores, enabling data-driven HR decisions.

TECHNICAL SKILLS

Languages: Python, SQL

Frameworks: Tensorflow, Pytorch

Developer Tools: Microsoft Azure, Github, VS Code, Jupyter, Tableau, Power BI, Microsoft Excel

Libraries: Nltk, Pandas, NumPy, Matplotlib

CERTIFICATION

Data Analytics Essentials	Cisco <i>August. 2024</i>
AI For Everyone	Coursera <i>June. 2020</i>
Data Analytics and Visualization Job Simulation	Accenture <i>March. 2024</i>
Python Data Structures	Coursera <i>May. 2022</i>
Power BI Job Simulation	pwc <i>August. 2024</i>

ACTIVITIES

Participant in Technical Hackathon <i>Python</i>	IBM <i>Jun. 2019</i>
Coordinator and Event Organizer <i>Technical Event Organized</i>	MLRITM <i>Dec 2019</i>
