Education

The LNM Institute of Information Technology

Bachelor of Technology in Mechanical
7.6 CGPA

2021 – 2025

Jaipur, Rajasthan

Jayshree Periwal High School

94.2% | CBSE 12th

2021

Jaipur, Rajasthan

Brightland Girls Senior Secondary School

97.2% | CBSE 10th

2019

Jaipur, Rajasthan

Experience

Amazon

Jul 2024 – Dec 2024

Software Development Engineer Intern | AWS, Quicksight, Python, Timestream, CMake, Git

Bangalore, Karnataka

- Developed an end-to-end solution integrating 1,00,000+ devices to AWS IoT Core.
- Utilized AWS Timestream for efficient time-series data storage and low latency querying.
- Visualized the data on an interactive AWS Quicksight dashboard enabling real-time wear & tear analytics for Manufacturers, repair personnel and customers.
- Integrated AWS Lambda to automate data transmission from AWS IoT to Timestream and route requests from dashboard for real-time data.
- Developed a scalable Python service processing 10,000,000+ data points per second, leveraging MQTT for secure AWS IoT communication and AWS Device Shadow updates.
- Achieved 88% PyTest and Unit test coverage, ensuring robust and reliable code.
- Migrated software packages from an older build system to a more stable, native build system and also troubleshooted critical issues in them.
- 10 hours build time reduced for every package built, achieving significant improvements in build efficiency.
- Collaborated globally with cross-functional teams from India, USA and China to ensure a smooth transition with minimal disruption.
- Led documentation and peer code reviews, streamlining future scalability and ensuring code quality.

National Engineering Industries Ltd. (NBC Bearings)

4 Jul 2023 – 5 Aug 2023

Summer Intern | Collaboration, Interpersonal Skills, Excel, PowerBI

Jaipur, Rajasthan

- Supported the engineering team by collecting and analyzing production data using Excel and Power BI to track machine efficiency, cycle times and defect rates, leading to a 15% improvement in production efficiency.

Projects

Sales Insights - Data Analysis and Visualization Project | Power BI, SQL

Jan 2024

- Designed an interactive Power BI dashboard to understand sales trend enabling stakeholders to visualize key business metrics and make data-driven decisions.
- Conducted data cleaning and analysis to ensure data accuracy and improve business processes.
- This dashboard could help in increasing the revenue by at least 10% in the next quarter.

Continuous Green Charcoal Production Technologies | Fusion 360, AutoCAD

Aug – Dec 23

- Designed a screw conveyor heat exchanger on AutoCAD and Fusion360 to convert MSW into torrefied biomass using torrefaction.
- Performed detailed mechanical design calculations for equipment selection, sizing and other parameters.
- Contributed to a scalable, energy-efficient solution for waste-to-energy conversion, promoting sustainability and reducing global warming impact.

Skills

Technical Skills: C++, MySQL, Python

Developer Tools: AWS IoT Core, Timestream, Quicksight, Lambda, Power BI, Excel, Git, VS Code

Soft Skills: Collaboration, Interpersonal Skills, Adaptability, Observation, Problem Solving, Innovation

Certifications

Master Microsoft Power BI

Oct 2023
