SUMMARY

Engineering graduate with one year of hands-on HR experience, currently pursuing an MBA in Human Resources and Business Analytics. Seeking an opportunity to apply my knowledge, grow professionally, and contribute to the success of a forward-thinking organization.

WORK EXPERIENCE

Human Resource Intern, Agrasen Technologies

May 2025 - July 2025

As an HR intern, I assist recruitment, screening candidates, and matching them to the right roles. I help organize onboarding by creating schedules and checklists to make new hires feel welcome. I track interviews and hiring progress using Excel reports. I'm also learning about performance management, bulk hiring, and other HR tasks to build my skills.

Human Resource Manager, Agrasen Technologies

July 2023 - July 2024

HR professional with hands-on experience in hiring, onboarding, and helping employees grow. Experienced in finding and selecting candidates who match both the job role and company culture. Involved in the full hiring process—researching, shortlisting, and arranging interviews with management. Comfortable using Excel and creating reports. Focused on building people-first systems that support both team and business success.

Soft Skills: Team Leadership, Communication, Time Management

PROJECTS

VEHICLE SAFETY SYSTEM FOR BLIND SPOTS AND HILLY AREAS (FINAL YEAR PROJECT)

Developed a prototype vehicle detection and alert system utilizing LiDAR sensors and LED indicator boards to identify vehicles from a safe distance and notify oncoming traffic. This system is designed to improve safety at high-risk locations such as sharp curves and T-intersections by enhancing driver awareness and reducing the likelihood of accidents.

SMART CAR PARKING SYSTEMSMART CAR PARKING SYSTEM (MINI PROJECT)

Designed and implemented an Arduino-based Car Parking System that manages vehicle authorization and controls parking space allocation. The system ensures only authorized drivers can park, following predefined rules to optimize parking management.
