

Skills

- SQL
- Python (Pandas, NumPy, SciPy, Matplotlib)
- Tableau
- Excel (VLookup, Conditional Formatting, PivotTables)
- Microsoft Power BI

Projects

Banking Risk & Insights Dashboard – Excel, SQL, Power BI, Python

- Developed an interactive banking dashboard using **Power BI with Excel-SQL-Python** integration to analyze customer behavior and financial risks
- Identified high-value users through **deposit correlations** across savings, checking, and foreign currency accounts
- Derived actionable insights to support loan targeting and business lending strategies

World Layoff Analysis – SQL

- Cleaned, verified, and **structured global layoff data** (2020–2025) for accuracy and completeness
- Used SQL (GROUP BY, HAVING, DENSE_RANK) to uncover trends and built simple visual summaries

Diwali Sales Analysis – Python, Pandas, Seaborn

- Analysed large festive datasets with **precise filtering** and grouped metrics
- Created visual reports showcasing insights by state, gender, and product categories

Sign Language Recognition

- Developed a sign language recognition system using **computer vision** techniques to bridge the communication gap for the deaf and hard-of-hearing community.
- Implemented hand pose estimation and **machine learning algorithms** for real-time sign recognition.

Traffic Monitoring System Using YOLOv8 and OpenCV

- Developed a real-time Traffic Monitoring System using **YOLOv8, OpenCV, and EasyOCR** for vehicle detection and license plate recognition.
- Enabled automated traffic surveillance with speed estimation and plate text extraction from live or recorded video footage.

Education

BACHELOR OF TECHNOLOGY IN COMPUTER SCIENCE– Galgotias University – Greater Noida, India

June 2025

Certifications

- **COURSERA** : Google Data Analytics
- **IBM SKILL BUILD AND CSRBOX ACADEMIC INTERNSHIP** : Data Analytics
- **FORAGE** : Data Visualization Empowering Business with Effective Insights
- **AWS ACADEMY** : AI-ML Virtual Internship
- **CELONIS** : Process Mining Virtual Internship
- **ALTERYX** : Machine Learning Fundamentals
