SUMMARY

Dedicated MCA student with strong academic knowledge in programming, databases, and software development. Quick learner with hands-on project experience and a passion for exploring new technologies. Proficient in Python, SQL, and web technologies like HTML, CSS, and React. Seeking an opportunity to apply skills in real-world projects and contribute to innovative tech solutions.

EDUCATION

Master of Computer Application , Mumbai University	2023 - 2025
Bachelor of Computer Application , Shivaji University kolhapur	2020 - 2023
Higher Secondary Education(HSC) , Maharashtra State Board	2019 - 2020

SKILLS

Programming Languages	SQL, Python, HTML , CSS , JavaScript, ReactJs
Databases	MySQL, Firebase
Tools	Power BI, MS Excel
Soft Skills	Problem Solving, Adaptability, Creativity, Teamwork

EXPERIENCE

Data Analyst Intern Knowledge Solutions India	Jan 2025 - June 2025 (Six Months)
- Collected, cleaned, and analyzed datasets using Python libraries like Pandas and NumPy to extract actionable insights.. - Performed data analysis using Python (Pandas, NumPy) to identify patterns and generate insights.	

PROJECTS

House Price Prediction. Developed a machine learning model using Python and scikit-learn to predict house prices based on user inputs like area and room count. Integrated the model into a Flask web app with HTML/CSS frontend. Applied regression techniques and ensured accuracy with R^2 and MAE metrics.

Child Vaccination Application. Built a centralized platform to manage and track child vaccination records, improving accessibility for healthcare providers and parents. Designed a user-friendly interface for scheduling, monitoring, and updating vaccination details efficiently .

Virtual Mouse Detection System. Developed a virtual mouse system using hand gesture recognition with webcam input. Utilized OpenCV and MediaPipe to track hand landmarks and control mouse actions like movement and click without physical contact..

E-commerce Website. Developed a dynamic and responsive e-commerce web application using React.js. Implemented product listing, shopping cart, and user authentication features with a modern UI for seamless user experience..

Car Rental Portal. The Car Rental Portal is an online car booking system developed using HTML5, CSS3, PHP, and MySQL. It allows users to browse available cars, register/login, and book vehicles in real time .
