Salur, Vizianagaram, Andhra Pradesh,535391

- ❖ Enthusiastic and detail-oriented post graduate with a strong foundation in Java, Python, database management. Passionate about developing innovative solutions and eager to apply problem-solving skills in a dynamic tech environment. Seeking an entry-level role to contribute technical expertise and grow within a forward-thinking organization."

EDUCATION:

▪ MASTER OF COMPUTER APPLICATION Miracle educational institutions	CGPA: 7.2	2022-2025
▪ BACHELOR OF COMPUTER SCIENCE Sri satya sai degree college	CGPA: 7.7	2019-2022
▪ INTERMEDIATE Sri Vasavi junior college	CGPA: 6.90	2017-2019
▪ SSC Bhashyam public school	CGPA:9.0	2016-2017

SKILLS SUMMARY:

- **LANGUAGES** : Python, Java
- **DBMS** : SQL
- **WEB DEVELOPMENT** : HTML, CSS
- **TESTING SKILLS** : Webservices, SDET, Typescript
- **SOFT SKILLS** : Critical Thinking, Problem-Solving, Effective Communication, Quick Learning

PROJECTS:

MAJOR PROJECT:

- ❖ Cost effective drowsiness detection with adaptive visual behaviour analysis.
- ❖ Overview: The Driver Drowsiness Monitoring System is a project that uses visual behaviour analysis and machine learning to detect signs of driver fatigue and prevent accidents. The system captures real-time video of the driver's face using a camera and analyses key visual cues such as eye closure, yawning, head position, and blink rate. Machine learning models process these inputs to identify drowsiness patterns and issue alerts (such as sound or vibration) when fatigue is detected. This enhances road safety by reducing the risk of accidents caused by driver drowsiness.

MINI PROJECTS:

- ❖ Banking system (java):
Overview: A banking system in Java manages accounts, transactions, and user operations like deposits, withdrawals, and Balance enquires securely
- ❖ Simple calculator (python):
Overview: A simple Python calculator performs basic operations like addition, subtraction, multiplication, and division using User input and functions
- ❖ Countdown timer page (HTML):
Overview: A countdown timer HTML page displays a countdown to a specified time, updating every second, and triggers alerts On completion.

CERTIFICATES:

- **SAP HANA**
Solid understanding of the fundamentals of SAP HANA architecture and database management, Data modelling, HANA studio.
- **AWS**

- **LANGUAGES KNOWN:** English Hindi Telugu

- **DECLARTION:** I hereby declare that the above-mentioned details are true and fair to my knowledge
