MBA	Bengaluru City University, Bangalore	2024- Present
BCA	Chaudhary Charan Singh University, Meerut	2020-23
Senior Secondary	CBSE Board	2020
Secondary	CBSE Board	2018

EXPERIENCE

- Human Initials** May 2025 - July 2025
Data Analyst Internship New Delhi
 - Built a strong foundation in data storytelling, **exploratory data analysis(EDA)**, and deriving actionable insights, while understanding how analytics supports organizational goals.
 - Progressed from intermediate level to advance level in key tools like **SQL**(joins, subqueries, window functions) and **Python** (Pandas, NumPy,Matplotlib), applying them to clean, analyse, and visualize datasets.
 - Sharpening problem-solving skills and developing a data-driven mindset and gaining practical, hands-on experience working on real-world data analysis projects.
- Journey Fiesta** July 2023 - November 2023
SEO Analyst Noida
 - Implemented **SEO strategies** to enhance website ranking and organic traffic with analysing website performance using Google Analytics, Search Console and SEO tools to optimize content.
 - Collaborated with content creators and **web developers** to ensure SEO best practices.
 - Created and optimized content for blogs, social media, and web pages to align with SEO best practices. Implemented technical SEO improvements, including site speed optimization, mobile responsiveness, and structured data.
- Micros IT Solutions** December 2022 - June 2023
SEO Analyst Ghaziabad
 - Learned about **SEO** and **SMO** as well as how to create content based on keyword and search queries to improve Google ranking.
 - Proficient in using **Chat GPT** for engaging content. Experience with Google Analytics, Google Trends. With valuable experience in SEO, PPC advertising, analytics.
 - Conducted data analysis on marketing to get insights that helped optimize **campaign strategies** with cross-functional teams to prepare data-driven presentations for client reporting, improving decision-making efficiency.

PROJECTS

- Live Retail Analysis** July 2025
Tools: [MS-EXCEL + POWER BI] 
 - Retail Sales Analytics project involving data cleaning, transformation, and visualization using Excel and Power BI, resulting in actionable insights into customer behavior. Key metrics such as **Net Revenue**, optimized data quality by handling missing values, correcting data types, and removing duplicates, and **performed exploratory data analysis (EDA)** to uncover sales trends.
 - Fully interactive Power BI dashboard** featuring dynamic slicers (City, Product Category, Gender, Delivery Status) and rich visualizations (KPI indicators, bar, pie, line, and scatter charts) to monitor and analyze key performance drivers including **revenue trends, order volume, and discount effectiveness**.
 - Enabled data-driven decision-making by transforming raw retail data into intuitive business intelligence tools, enhancing stakeholder reporting efficiency and supporting **strategic planning** initiatives.
- Netflix Originals Data Analysis** April 2025
Tools: [SQL] 

- Performed in-depth **SQL analysis** on Netflix data to extract genre-wise insights, such as average IMDb scores, top-rated content, and content count per genre.
- Using **window functions** like RANK() to determine top-performing titles and Utilized aggregation functions (AVG(), COUNT(), MAX()) to summarize runtime, score, and content volume across genres.

TECHNICAL SKILLS

- **Programming Languages:** Python(Pandas/Numpy/matplotlib/Seaborn)
- **Tools:** Canva, Overleaf, Power BI, MS Access
- **Skills:** SQL(MySQL), MS Excel(V-Lookup,VBA Macro), Data Visualization, Data Cleaning, SEO, Prompt Engineering
