Education

Symbiosis Statistical Institute
MSc Applied Statistics; CGPA: TBD
North Maharashtra University
BSc Actuarial Science; CGPA: 8.31

Pune, India
August 23 - May 25
Jalgaon, India
October 20 - June 23

SKILLS SUMMARY

- **Language:** Python, SQL, R.
- **Frameworks:** Pandas, NumPy, Scikit-Learn, Matplotlib, Plotly, Sklearn, Machine Learning Algorithm.
- **Tools:** Power BI, Advance Excel, Power Point, Tableau, MySQL.
- **Platforms:** VS Code, PyCharm, Jupyter Notebook, SQL Workbench.
- **Soft Skills:** Excellent communication, Public speaking, Teamwork, Career management.

Experience

BUSINESS ANALYST INTERN | UNIFIED MENTOR

February 25 – Present

- Streamlined data collection and reporting procedures, reducing processing time by 20% enhancing efficiency.
- Implemented process improvements and automation solutions, resulting in 15% increase in productivity.
- Produced some comprehensive reports and presentation summarizing findings and recommendation, facilitating clear communication with project manager and driving actionable outcomes.
- Conducted in-depth market research and analysis, resulting in the identification of 7+ key trends and insights that formed strategic decision-making process.

DATA SCIENTIST INTERN | TECHNOCOLAB

JUNE 24 – AUGUST 24

- Achieved a 90% accuracy rate in predicting acquisition status of registered companies by developing and deploying supervised machine learning model that helps to make decision for stakeholders/investors.
- Managed data integrity by handling missing values and encoding categorical variables, enhancing quality by 30%.
- Conducted experiments with both classification and regression algorithms to identify the most suitable approach.
- Minimized false positives by 15% through rigorous feature engineering and hyperparameter tuning process.

PROJECTS

Credit Card Fraud Detection

- Developed and fine-tuned a logistic regression problem-based machine learning model achieving 87% accuracy rate in predicting credit card fraud.
- Implemented under-sampling and ensemble techniques to address class imbalance, leading to 15% improved performance.
- Successfully mitigated fraudulent transactions while optimizing model efficiency by 23% and accuracy by 6%.

Heart Disease Prediction

- Orchestrated the development of Logit model to predict heart disease, achieving an impressive accuracy of 95% and surpassing industry benchmarks.
- Spearheaded the implementation of HIPAA-complaint data protocols across all healthcare solutions, decreasing data breach incidents by 40% and ensuring patients privacy and security.
- Demonstrated commitment to ethical data practices while contributing to the development of data-driven healthcare solutions.
- Enhanced healthcare outcomes by 26% through accurate prediction of heart disease, positively impacting patient well-being.

CERTIFICATIONS

Data Science (PW Skills)

- Mastered in Data processing, Data visualization, Model fitting, developing and deploying on server.
- Learnt in detail about Machine Learning Models (Supervised & Unsupervised Learning). SQL and Tablue for visualization

A-Z Python (Udemy)

- Proficient in Python Syntax, OOPs, loops, functions and data structures.
