Business Analyst / Data Analyst with 2 years of experience in backend development and hands-on exposure to analytics projects. Skilled in using SQL, Python, Excel, and Power BI for data cleaning, reporting, and visualization. Strong understanding of KPIs, business metrics, and root cause analysis. Detail-oriented, fast learner, and eager to contribute to cross-functional teams in solving real-world problems.

TECHNICAL SKILLS

- **Programming Languages** : Python, SQL, PHP, JavaScript, HTML, CSS
- **Data Analysis & Visualization** : Power BI, Excel, Power Point
- **Microsoft Office Suite**: Excel – PivotTables, Charts, Formulas, PowerPoint
- **Web Frameworks**: Flask, Django, Laravel
- **Data Storytelling**: PowerPoint + Power BI dashboards
- **Business Metrics Analysis**: KPIs, Revenue Trends, Forecasting

WORK EXPERIENCE

Technogeeks Institute - Pune

Feb 2024 - July 2024

As Data Analyst

- Created dashboards using Power BI to track and visualize key business metrics.
- Used SQL queries to analyze customer behavior and identify data trends.
- Participated in planning sessions and translated analytics findings into actionable business insights.

Magneto IT Solutions - Pune

Jan 2022 - Jan 2024

As Backend Developer

- Integrated third-party APIs into web applications for enhanced functionality.
- Developed software solutions using PHP, JavaScript, HTML, and CSS.
- Gained exposure to database design, data cleaning, and reporting

PROJECTS

False Alarm Detection – Data Analyst

Role: Data Analyst | Tools: Python, Pandas, Scikit-learn

- Cleaned and preprocessed dataset (10,000+ rows) using Pandas and NumPy.
- Implemented Logistic Regression model using Scikit-learn.
- Interpreted model output and communicated findings with a business-oriented summary to simulate stakeholder reporting.

ParkEase – Secure Parking Access

Role: Full Stack Developer | Tools: Flask, SQL, HTML, JavaScript

- Built a full-stack web application to manage parking access for corporate and public users.
- Integrated a secure payment gateway for digital parking fee transactions.
- Created an OTP-based login system for user verification and streamlined user access.

EDUCATION

Institute of Industrial and Computer Management and Research (IICMR)

Feb 2021 - Nov 2022

Master's In Computer Application

CERTIFICATION

- **Python Certificate** – HackerRank
- **SQL Intermediate Certificate** – HackerRank
- **Data Science Course Certificate** – Technogeeks
