PROFILE SUMMARY

I'm an enthusiastic and optimistic individual with a strong foundation in data science, problem-solving, and communication. I've completed certifications like Oracle AI Foundations Associate and I'm comfortable working with tools like Python, SQL, and machine learning libraries. I'm now looking for an opportunity to apply my knowledge and grow in a real-world data-driven environment.

INTERNSHIPS

- Data Analysis Internship at Cognifyz Technologies. [Project link](#)
- Data Analysis Internship at Brainwave Matrix Solutions. [Project Link](#)

EDUCATION

- **MCA :-** Shri Ram College of Technology (2022-2024)(75%)
- **BCA :-** Nachiketa College of Computer Science, Commerce and Advanced Technology (2019-2022)(74.15%)

SKILLS

- **Technical Skills:** Python, Machine Learning (ML), Data Cleaning & Processing, SQL, Cloud Computing, Manual Testing, DBMS, OOPs, Project Management, EDA (Exploratory Data Analysis), Excel, Google Sheets & Docs, Prompt Engineering (Basic).
- **Business Intelligence Tools:** Power BI, Atlassian Jira.
- **Languages:** English, Hindi

TOOLS & PLATFORMS

- **IDEs & Platforms:** Jupyter Notebook, Google Colab, Visual Studio Code, Anaconda.
- **BI Tools:** Power BI, Atlassian Jira

AWARD AND ACHIEVEMENTS

- SQL Basic Certificate from HackerRank. [Link](#)
- SQL Gold badge achiever in HackerRank.
- Business Intelligence using Power BI Workshop Completion Certificate by Skill Nation.
- Data Science & Cloud Computing Training Certificate by Rays & Ways.
- Introduction to Cyber Security Course Completion Certificate by Cisco.
- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate and Badge. [Link](#)

SOFT SKILLS

- Leadership Quality
- Quick Learner
- Artist
- Strong Communication Skills
- Team Work
- Adaptive Nature

- Attractive and convince way of communication
- Gmail Writing
- Social Media
- LinkedIn

PROJECTS

- **Netflix Movie Data Analysis** : I have completed the project “Movie Data Analysis of Netflix”

 Project Link: <https://github.com/Muskantam/Movie-data-analysis-netflix>

- Performed Exploratory Data Analysis (EDA) on Netflix’s movie dataset to uncover patterns and trends.
- Analyzed genre-wise distribution, viewer ratings, and content release trends over the years.
- Used Python (Pandas, Matplotlib, Seaborn) to clean data, draw insights, and visualize results effectively.
- Created impactful charts and graphs to tell data-driven stories from the dataset.
- Improved skills in data cleaning, visual storytelling, and real-world dataset analysis using Jupyter Notebook.

Key Technologies: Python, Pandas, Matplotlib, Seaborn, Jupyter Notebook, EDA, Data Cleaning.

- **Amazon Product Web Scraper (Python Automation Project):**

 Project Link: <https://www.linkedin.com/in/muskan-tamrakar-aa559a246/recent-activity/all/>

- Developed a Python-based web scraper to extract Amazon product data (laptops) using Selenium for automation and BeautifulSoup for HTML parsing.
- Enabled real-time browser interaction to scrape live content including product names, prices, and descriptions.
- Handled dynamic content loading and automated data collection from e-commerce platforms.
- Enhanced skills in web automation, data structuring, and handling dynamic websites using ChromeDriver.

Key Technologies: Python, Selenium, BeautifulSoup, ChromeDriver
