

MAHARSHI THALAPANENI

Data Analyst & Scientist

Contact no: 7036706737 E-mail: m.maharshithalapaneni3@gmail.com GitHub: <https://github.com/Mahi424-mahi>

LinkedIn: <https://www.linkedin.com/in/maharshi-thalapaneni-27a239340>

CAREER OBJECTIVE:

Results-driven Data Analyst and Scientist proficient in Python, SQL, and Data Visualization. Skilled in extracting insights from large datasets, developing machine learning models, and improving business strategies. Passionate about leveraging data-driven insights to enhance decision-making and operational efficiency.

EDUCATION:

Bachelor of Engineering (B.E) - Computer Science and Engineering	2020-2024
Jansons Institute of Technology	CGPA:8.5
Anna University	
Intermediate	2018-2020
Andhra Loyola College	CGPA:7.3
SSC	2018
ZPH School	CGPA:9.2

TECHNICAL SKILLS:

- **Programming:** Python, HTML, CSS
- **Libraries & Frameworks:** NumPy, Pandas, Matplotlib, Seaborn, Sklearn
- **Databases:** MySQL, Oracle SQL
- **Tools:** GitHub, VS Code, Google Colab, Power BI, MySQL Workbench
- **Soft Skills:** Problem-Solving, Adaptability, teamwork, leadership, and time management.

PROJECTS:

1. E-Library Management System

- Developed an ID card-based book distribution system, reducing book retrieval time by 40% and improving library efficiency.
- Implemented book location mapping, reducing search time by 50% for students and staff.
- Technologies Used: Python, Django, HTML, CSS

2. Two-Way Sign Language Detection for Visually Impaired Using AI & ML

- Developed an AI-powered system for real-time hand sign-to-voice conversion, improving accessibility for visually impaired individuals.
- Integrated Python's sound library and OpenCV, achieving a 90% accuracy rate in real-time sign detection.
- Technologies Used: Machine Learning, Python, HTML, CSS, Database Storage

3. Blink it Sales Dashboard

- Analyzed \$1.2M in sales data, identifying key trends that increased sales efficiency by 20%.
- Identified peak sales periods and top-performing product categories, optimizing inventory planning.
- Technologies Used: Excel, Power BI
- GitHub link: <https://github.com/Mahi424-mahi/blinkit-dashboard/tree/main>

4. Mobile Sales Dashboard

- Built an interactive mobile data dashboard using Power BI.
- Visualized key insights like OS type, 5G support, and camera specs.
- Used pie, bar, and line charts for clear, engaging visuals.
- Analyzed brand-wise pricing, battery, and storage trends.

- Made data easy to understand for quick decision-making

INTERNSHIPS:

Tech Volt | Web Developer Intern | March 2022

- Developed and optimized responsive websites, reducing load times by 30% and improving user engagement.

Optec Software Pvt Ltd | Mobile App Developer | March 2023

- Designed and optimized mobile applications, improving app performance by 25% and user retention by 15%.

EXPERIENCE:

Innoviti Technologies Pvt.Ltd

Business Analyst | Innoviti Technologies Pvt.Ltd | Bengaluru | Karnataka

May 2025 - Present

CERTIFICATIONS:

- **Infosys Springboard (August 2022):** Database Management Queries
- **IBM (March 2023):** Competitive Analysis of Leading Travel Aggregators
- **GUVI (July 2024):** Python and Database Management
