MAHIMA JAISWAL

Aspiring Business Analyst with a background in software engineering and hands-on experience in requirement gathering, data analysis, and stakeholder communication. Looking to apply analytical thinking and technical acumen to bridge business needs and IT solutions in a dynamic organization.

PROFILE SUMMARY

- A focused professional with nearly **3 years of experience** in Software Engineering and Business Analysis.
- A quick learner in mastering **new technologies**; capable of working in both team and self-directed settings.
- Executed a project in a smooth and timely manner that led to **15% increase** in task efficiency.
- Skilled in crafting **User Stories, UAT Planning** and addressing **RFPs** to establish project scope and achieve business goals.

WORK EXPERIENCE

Software Engineer L1 | Business Analyst at Gemini Solutions Pvt. Ltd., Gurgaon (Sep' 2022 – Jan' 2024)
Software Engineer L2 | Business Analyst at Gemini Solutions Pvt. Ltd., Gurgaon (Jan' 2024 – June' 2025)

As Software Engineer L1 | Business Analyst

- Built scalable, high-performance web applications using ReactJS, NextJS, & TypeScript.
- Contributed to the creation of Software Requirements Specifications (SRS) and Scope documents, designed wireframes and conducted User Acceptance Testing (UAT).

As Software Engineer L2 | Business Analyst

- Managed project planning and coordination using tools like JIRA and Confluence, and leveraged AI tools such as ChatGPT to streamline documentation and task analysis.
- Drafted Statements of Work (SOWs) and responded to Requests for Proposals (RFPs) to outline project scope and define business objectives.
- Implemented Agile/Scrum practices and facilitated backlog grooming, sprint planning, and prioritization of user stories to ensure timely and focused delivery.

PROJECTS

- Vyom.ae****February 2025**
- Worked as (SPOC) between clients and internal teams to ensure clear communication, timely resolution of requirement queries, and alignment of project expectations.
 - Engaged in providing post-implementation reviews and continuous improvement recommendations.
 - Managed client pre-sales engagements, analysed and translated business challenges into high-level solutions by executing discovery workshops, client interviews, and requirement elicitation sessions.

- American Investment Management Firm****April 2024**
- Partnered with clients and stakeholders to elicit, analyze, & document comprehensive business requirements.
 - Collaborated with project managers to define timelines, allocate resources, and deliverables while creating detailed user stories and functional requirement documents.
 - Created and evaluated wireframes in Figma to drive UI/UX improvements in close collaboration with design teams.
 - Performed feasibility studies and impact assessments to validate the practicality and alignment of proposed solutions with business needs.

- TATA-AIG | Gemini Solutions Internal****October 2023**
- Led the creation of detailed documentation such as BRD, FRD, SRS, Scope of Work, wireframes/prototypes, user stories, and client sign-off documents.
 - Contributed to project governance to maintain requirement traceability and ensure alignment with project objectives.
 - Conducted UAT and QA processes to verify that deliverables aligned with business expectations and ensured client satisfaction.
 - Managed Azure DevOps boards to maintain accurate task updates and categorization, effectively managed sprints by tracking progress and adjusting plans to meet project deadlines.
