

Mohammed Majid Mohiuddin

Hyderabad, Telangana | +91-9912367058 | majidkaif123@gmail.com | <https://www.linkedin.com/in/mohammed-majid-mohiuddin-0629b6274>

Professional Summary

Driven and versatile Electrical & Electronics Engineering graduate with proven excellence in customer support, electrical design, data analytics, and business development. Recognized for empathetic service, team mentoring, and strategic problem-solving. Passionate about peer learning, leadership, and enabling growth in dynamic roles including Tech Support, Analysis, Electrical Design, and Operations.

Education

B.Tech – Electrical & Electronics Engineering, JNTU-H Affiliated College – 2024 | 81%

• Branch Topper • “Best Outgoing Student” • Class Representative & Cultural Lead

Intermediate (MPC) – Govt Jr. College, Jangaon – 2020 | 75%

SSC (Urdu Medium) – ZP High School, Jangaon – 2018 | CGPA: 8.5 (School Topper, School Captain)

Experience

Customer Delight Associate – Zomato | Dec 2024 – May 2025

- Resolved 100+ queries/day across chat, calls & email for premium customers
- Promoted to special desk within 1 month for high-performance and empathy-driven service
- Improved resolution speed by 22% through pattern analysis & cross-team coordination
- Trained new hires in process flow, tools, and customer handling

Java Full Stack Trainee – JSpiders | 2024

- Trained in core **Java, SQL, HTML, CSS**, and fundamentals of **OOPs**
- Solved **100+ SQL queries/hour**, developing strong database problem-solving skills
- Learned to **analyze coding problems** logically and implement clean solutions
- Created **mini frontend projects** showcasing responsive design and user interface basics
- Collaborated in peer discussions to improve coding clarity and performance

Digital Skills Mentor – Digital Equity | 5 Months

- Mentored and taught **digital literacy** to over **100 underserved students**
- Led structured training on **Docs, Sheets, Presentations, and Internet basics**
- Managed **documentation, planning, and reporting** to streamline training programs
- Boosted digital tool adoption by **70%** through **local-language contextual teaching**
- Organized and facilitated **teamwork, communication, and confidence-building workshops**
- Played a key role in enhancing program impact through **well-organized session tracking and feedback system**

Academic Projects

Password-Protected Circuit Breaker for Lineman Safety

Objective: To improve lineman safety by enabling only authorized personnel to control high-voltage circuit breakers.

Description:

- Designed a microcontroller-based circuit using **relays, keypad input**, and **embedded C** programming to control breaker operations.
- Access is granted only after correct password entry, preventing unauthorized or accidental switching during maintenance.
- Employed **LED indicators** and **safety logic** to visually confirm breaker status.
- Simulated the system in **Proteus** and tested with **hardware on breadboard**.

2. Cloud-Enabled Text and Image Transfer via IoT

Objective: To facilitate remote communication by transmitting real-time data and media to the cloud using IoT.

Description:

- Built a custom **mobile application** integrated with various **microcontrollers and inbuilt sensors** such as a **fingerprint sensor, voice controller, camera**, and more.
- Enabled **data transfer from one IoT device to another**, ensuring real-time communication across devices
- Designed the solution to offer remote accessibility, control, and monitoring through both mobile app and cloud interface

Skills & Tools

Tech Skills: SQL, Core Java, AutoCAD Electrical (learning), Circuit Design, IoT, Oracle

Tools: MS Excel (Advanced), PowerPoint, Zoom, Slack, CRM Tools, Google Workspace

Soft Skills: Communication, Leadership, Problem-Solving, Peer Mentoring, Time Management

Leadership & Interests

- Led events as School Captain & Class Rep – known for initiative & collaboration
- Conducted peer sessions on coding, circuit analysis, and communication
- Passionate about teaching, mentorship, and knowledge-sharing
