Mumbai, India

EDUCATION

B.Sc. Information Technology

University of Mumbai

Grade : 8.92 CGPA

2019-2022

M.Sc. Artificial Intelligence

University of Mumbai

Grade : 8.98 CGPA

2022-2024

TECHNICAL SKILLS

- Microsoft Suite
- MS Excel
- Python
- Data Visualization (Matplotlib, Seaborn)
- Numpy, Pandas
- MySQL
- Machine Learning

SOFT SKILLS

- Communication
- Teamwork
- Leadership
- Problem - solving
- Creativity

ABOUT ME

Dynamic and detail-oriented individual with a Master's degree and a comprehensive background in data analysis and visualization. Equipped with a solid foundation in translating complex data into actionable insights and a strong understanding of advanced analytical techniques and methodologies. Highly motivated to leverage data expertise to drive strategic decisions and achieve impactful results. Eager to contribute to a data-driven organization and excel in a challenging, fast-paced environment.

EXPERIENCE

INTERNSHIP

TCS iON

Sentiment Analysis Automation Project

Sept 2023 - NOV 2023

- Developed a sentiment analysis model using NLP techniques to classify customer feedback accurately.
- Automated data processing and generated visual reports to present actionable sentiment insights for strategic decisions.

CERTIFICATIONS

DATA ANALYTICS

Anudip Foundation

- Gained hands-on experience with key analytical tools and techniques, including data visualization, statistical analysis, and data cleaning, enhancing ability to derive actionable insights from complex datasets.
- Mastered industry-standard software such as Excel, SQL, and Python for data manipulation and reporting, resulting in the successful execution of multiple data-driven projects and improved decision-making processes.

PROJECTS

IPL DATA ANALYSIS

- Led an IPL data analysis project utilizing Python, incorporating Pandas for data processing and Matplotlib and Seaborn for visualization. Explored match and player data to reveal key performance trends and insights, effectively communicating findings through detailed and visually engaging reports.

INVENTORY MANAGEMENT ANALYSIS

- Developed an Inventory Management Analysis system using data from a MySQL database to optimize inventory tracking and visualization for a mid-sized retail company. Utilized data visualization tools to create interactive dashboards that highlight key metrics, providing real-time insights into stock levels and sales trends.
