Objective:

Motivated and detail-oriented Computer Applications graduate with strong foundational knowledge in Java, SQL, and full-stack web development. Seeking a software developer role to contribute technical skills in building scalable, high-performance applications.

Technical Skills

- **Languages:** Java, SQL, HTML5.
- **Frameworks / Libraries:** J2SE, J2EE, Servlets, Spring MVC.
- **Databases:** MySQL, Workbench, Oracle.
- **Developer Tools:** Visual Studio, Eclipse IDE, Spring Initializer.
- **Web/Operating System:** Windows.
- **Technical Proficiencies:** Object-Oriented Programming, Database Management System, Collection Frameworks.
- **Soft Skills:** Leadership, Problem-Solving, Collaborative.

Education

Bachelor of Computer Applications (BCA)

Spurthy College of Science and Management Studies

- CGPA: 7.43

Chandapura, Bangalore

Oct 2021 – Jul 2024

Pre-University Course (PU)

MM Government PU College (PCMB)

- Final Percentage: 75%

Holalkere, Chitradurga

June 2019 – Dec 2021

Secondary School Leaving Certificate (SSLC)

Vagdevi International Public-School

- Final Percentage: 89.48%

Holalkere, Chitradurga

June 2009 – Apr 2019

Academic Projects

Bus Pass Management System

- Developed a secure bus pass management system using with user authentication with login, registration, and account management features using PHP and MySQL ensuring secure and scalable data handling.
- Integrated React.js to build a responsive and interactive dashboard for streamlined management of bus pass records, including issuance, renewal, and status tracking.
- Developed a responsive dashboard for real-time management of bus pass data.

Apr-2024

Inventory Management System

- Developed a web based inventory management system to track stock levels, product, details and movements.
- Implemented a CRUD operations for products, suppliers, and categories using PHP and MySQL.
- Designed responsive user interfaces with HTML and CSS for seamless usability across devices.

June 2024

Individual Project

Employee Management System

- Built a fully functional Employee management system, which help to Track the employees who are working and to remove and adding an employees in particular day by using Java and Collection Frameworks.

Internship

DigiPondy Technologies, Bangalore

- Learned database management by implementing queries and CRUD operations in MySQL.
- Collaborated with the team to optimize API performance and enhance the scalability of existing systems.

Mar-2024

Certifications and Training

- Completed hands-on training in full-stack development, including front-end and back-end technologies in **Jspiders**.
- Gained experience in building and deploying web applications using Java, SQL, JDBC, Spring MVC and related technologies.

Hobbies

- Participating in Java Tech Community events to discuss innovations and practical applications.
- Exploring emerging technologies through hands-on mini-projects and open-source contributions.
- Collaborating with peers in the Java Tech Community to enhance problem-solving skills and discuss coding challenges.
