WORK EXPERIENCE

Research Analyst (Data)

Inventive Global Solutions Pvt. Ltd. Pune.

May 2025 – Present

Tool: Sales Navigator

- Performed contact discovery using LinkedIn Sales Navigator.
- Researched and collected data on potential clients and companies.
- Supported lead generation through accurate and fast data research.

PROJECTS

A Time-Series Analysis of student visiting library throughout the year 2022-23 | R-Studio | [Link](#)

- Utilized statistical techniques to uncover patterns and trends in library usage.
- Analyzed temporal patterns in student library visits to identify peak usage periods and areas for resource allocation.
- Implemented forecasting models to predict future library usage based on historical data, aiding in resource planning and staffing decisions.
- Collaborated with library staff to develop strategies for improving student access and satisfaction based on analysis findings.

HR Data Analysis | Tableau Public | [Link](#)

- Created a Tableau Public dashboard to analyze HR data, showcasing key metrics like employee count, attrition rates, average age, and job satisfaction and more; analysed by using charts, filter, calculated fields & parameters.
- This tool provides valuable insights into workforce dynamics and supports strategic decision-making.

Pizza Sales | SQL | [Link](#)

- Completing this project demonstrates the practical application of SQL for data management and analysis, contributing to business growth and improved operational efficiency.

Coffee Shop Sales | MS Excel | [Link](#)

- Developed a comprehensive sales analysis and interactive dashboard for a coffee shop using Microsoft Excel.
- Designed an interactive and visually appealing dashboard to present key insights and trends.
- Utilized pivot tables, charts, and slicers to allow dynamic data exploration.
