PROFILE SUMMARY

Empathy driven and stakeholder centric Business Analyst who takes charge of task flows, **sprint planning** and **stakeholder alignment** with **strategic approach**. Brings an **upbeat communication** style, **strong** sense of **ownership**, and a natural ability to **lead collaboration** across **cross-functional teams**. Skilled in facilitating discussions, **documenting business requirements**, and tracking **progress** using tools like **Jira**, **Figma**, and **Excel**. Thrives in **fast-paced, collaborative environments** where **empathy** and **structure** go hand-in-hand, delivering not just solutions, but energy, direction and lasting **efficient impact**.

EDUCATION

LDRP Institute of Technology and Research., Gandhinagar

September 2023 – May 2025

Masters in Computer Application (MCA)

(CGPA: 7.4)

SKILLS

Familiar Tools: Power BI, Microsoft Office Suite, Figma, JIRA, Miro, Draw.io, UX Pilot

Methodologies and Languages: Agile-Scrum, SDLC, Waterfall, SWOT Analysis, 5 C's, Pareto Principle, SQL, Python

Soft Skills: Communication, Team Collaboration, Adaptability, Learning Agility, Planning and Coordination

Other Competencies: Business Documentations, Requirement Gathering and Elicitation, Stakeholder Management, MoM's

INTERNSHIP EXPERIENCE

Business Analyst Intern, Zignuts Technolab, Gandhinagar

January 2024 – Present

- Facilitated **end-to-end requirements gathering**, **business documentation**, and **user story creation** by **conducting stakeholder interviews**, **Agile ceremonies**, and aligning **CEFR-level system** goals, fostering **clarity** across teams and **reducing misalignment** by 40%, while supporting a **consistent** and **collaborative workflow**.
- Orchestrated 600+ Jira tasks** and **20+ Agile sprints**, **partnered** with **two senior team leads** to drive deliverables, ensuring smooth **sprint planning**, **task allocation** and issue resolution, **successfully** completing **5+ major project milestones** with **timely delivery** and **high stakeholder satisfaction**.
- Collaborated** with design and tech **teams** to develop **UI/UX flows** in **Figma** and **Miro**, supported **QA validations**, and **led process design** for **modules** like login, session control, and **CEFR-based assessments**, **enhancing usability**, ensuring **functional accuracy**, and maintaining flow between strategy and execution.
- Monitored project** status, handled **deployment workflows**, and maintained **feature traceability** through Excel-based tracking, **Git coordination**, and **stakeholder reporting**, creating transparency, **reducing blockers**, and acting as a **key bridge** across design, development, QA, and **product leadership**.

Virtual Data Analytics Intern, Innodatatics, USA (Remote)

June 2022 – September 2022

- Reduced inventory** by 15% using Python and SQL-based forecasting, **improving stock efficiency**.
- Analyzed** user behavior to **boost engagement** and applied analytics to solve real-world **business problems**.

PROJECTS

Student Assessment System (Google Docs, Figma, UX Pilot, BRD's)

- Led business analysis** and **coordination** for a **CEFR-based Student Assessment System**, gathering requirements from **7+ stakeholders**, defining **500+ user stories**, and driving **collaboration** across teams to **deliver 5+ key milestones on time**.
- Coordinated UI/UX planning** and **adaptive assessment logic** with designers and developers, using SpeechAce and ChatGPT for report generation, contributing to a **30% faster QA cycle** and **reduced manual overhead**.

MMPRC Research Project (KSV) (Tools/Skills name)

- Conducted retention analysis** on KSV student data, identified attrition factors, applied **feature engineering**, and deployed a **Streamlit logistic regression** app to predict student churn with **enhanced accuracy** and **insights**.

S&P 500 Hourly Prediction App (Python)

- Developed a Streamlit app** to forecast hourly S&P 500 price movements using **yfinance**, integrating lagged features, **backtesting techniques**, and **clear visualizations** for trends, returns, and feature importance.

POSITIONS OF RESPONSIBILITY

- Senior Co-Ordinator, Xenesis, (Tech-fest' 23):** **Spearheaded** on-ground **execution** of student, **led** programs with a team of **500+ participants** during Xenesis.
- Community Head, Report Writing, (2023–2024):** **Led** the **documentation team** during Xenesis, **managing** structured report delivery for over **15 campus events**.
- Community Head, Mental Health Department, (2023 –2024):** **Oversaw** initiatives and awareness campaigns **promoting mental well-being** across the **student body**.

HOBBIES: Reading, Community Involvement, Volley-Ball, Binge Watching

LANGUAGES: English, Gujarati, Hindi
