EXPERIENCE

Trainity

Nov 2024 – Feb 2025

Data Analyst

Remote, KA

- Led process improvement initiatives by identifying inefficiencies and implementing IT-driven strategies that optimized reporting workflows, reducing manual reporting effort by 30%.
- Conducted market research on industry trends and competitor activity, influencing 3 strategic business proposals and enhancing stakeholder decision-making effectiveness by 25%.
- Led project planning activities, including sprint tracking and requirement gathering across engineering and business teams, which accelerated product delivery by 20%.
- Conducted quality assurance testing of dashboards and reports to ensure functional accuracy and data consistency, identifying and resolving 15+ data discrepancies.
- Engineered 5+ dashboards using SQL, Power BI, and Tableau, streamlining business processes and reducing reporting cycles.
- Prepared internal reports using Microsoft Excel and PowerPoint, improving data communication for business operations by 35%.
- Coordinated solution design efforts with cross-functional teams to transform business needs into actionable analytical deliverables.

PROJECTS

Call Trend Volume

- Analyzed 10,000+ records in a high-volume call center environment to identify business process bottlenecks, improving staffing strategies and operational efficiency by 25%.
- Applied root cause analysis and presented QA-validated findings to stakeholders via PowerPoint slides, resulting in a 20% improvement in decision turnaround time.

Impact of Car Features

- Conducted end-to-end market research and feature analysis using regression on 50+ variables across 5 vehicle categories.
- Drafted comprehensive business requirement documentation and structured pricing models, enhancing development planning efficiency by 10%.

IMDB Movie Analysis

- Explored rating trends across 15+ movie genres, applying statistical testing (mean, median, variance), and delivered insights that influenced 3+ marketing strategies and upcoming content curation plans.
- Built and tested data pipelines for 10,000+ records, ensuring 98% data accuracy and completeness, and reducing QA validation time by 25%.

Instagram User Analytics

- Analyzed user engagement trends for 5,000+ accounts using SQL and Excel, delivering segment-wise recommendations that informed marketing strategy.
- Identified 100+ potential bot accounts and optimized ad placement timing, increasing campaign engagement by 20% through improved targeting accuracy.

SKILLS

Data Analysis Business & Research: Business Requirements, Market Research, Market Trends, Business Process Design, Business Operations, Business Administration, Business Intelligence, Business Strategy

Tools & Technologies: Microsoft Excel, PowerPoint, Tableau, Power BI, Python, SQL, MySQL

Process & QA: Process Improvement, Quality Assurance Testing, Root Cause Analysis, Report Validation

Project Support: Project Planning, Cross-Team Collaboration, Requirement Gathering, Solution Design

IT Competency: Understanding of IT Systems, Workflows, and Business Process Automation

EDUCATION

The National Institute Of Engineering

Dec 2022

Master of Computer Applications

Mysore, KA

Vidyavahini First grade College

Oct 2020

Bachelor Of Computer Applications

Tumkur, KA
